# GOLF COURSE UPDATE

Dear Members,

As we transition into the summer season, our team is working diligently to maintain optimal course conditions despite some early-season weather and irrigation challenges.

You may notice the golf course playing a bit drier and firmer than usual. This is the result of temporary irrigation limitations we are actively working to resolve. In the meantime, we are implementing targeted hand-watering, adjusting mowing schedules, and closely monitoring turf conditions daily to ensure both health and playability remain our top priorities.

We sincerely appreciate your patience and understanding as we navigate this temporary situation and continue striving to provide the best possible playing experience.
