Kids are often asked what they want to be when they grow up. They say things like: Doctor, Lawyer, Dentist, Veterinarian, Basketball Player, Singer, Dancer, Teacher, etc. Very few kids say,

**“I want to be an Entrepreneur.”**

What if we could change our conversations with kids and ask them,

**”What type of business do you want to own?”**

In this PDF, you have been given **SIXTEEN** business ideas that your child/student can implement to become a successful entrepreneur.

# TESTIMONIALS

Dr. Eccles is simply amazing! She truly cares for her students....she always treated them like they were great human beings, she was patient, and always expected the best out of each and every student. I personally believe it was her leadership as assistant principal that sparked this grand idea of the girls presenting their idea to feed the homeless to her.

Dr. Eccles listened to their idea and INSTANTLY began orchestrating a plan within the school to raise money and supplies so that the girls could bring their idea of feeding the homeless to life! The team along with myself, Dr. Eccles, and other parents held numerous events at major grocery stores, at the school and included others to put items in their cars to hand out as they passed people in need.

Dr. Eccles' participation in my daughter's life has truly had a positive impact.

Sincerely,  
Marcie Robinson (Parent)

Dr Eccles was approached by a group of young ladies (that included my daughter) with a service idea. They told her they wanted to do something to help homeless people. She responded by asking them to come up with a proposal for what it was they wanted to do, and how they proposed to do it. The girls put together a PowerPoint Presentation and the program was born! Dr. Eccles took care of helping the girls organize the donation drives in school! She also helped to let the greater community know about the group along with ways they could help. The news came out and introduced the group at one of the food and toiletry distributions. It was great! It really was quite remarkable and a beautiful thing to see! I know my daughter will never forget the experience! It planted a seed in her that you can take a thought you have on paper and build it into fruition! It made her a better leader!

Thank you, Dr. Eccles for taking the girls' dreams seriously and helping them, nurturing them, and allowing them to build something great!

Congratulations on your upcoming nuptials.

I am happy for you but sad as a parent. Thank you for being a great leader as well as always being there for the students. You made the transition much easier being a new "school" parent. Your smile and kind words meant a lot to me and my daughter. I wish you nothing but the best as you start a new chapter in your life.

Thank you, thank you, and thank you! Your replacement has big shoes to fill. Many blessings to you and your family!
