

Qual-Air Recommendation
February 5, 2024

Working with Paul and his team from Qual-Air was a pleasure. The foreman on the job was very knowledgeable and capable. They worked seamlessly with other contractors so that issues did not arise with locating equipment for the project. Paul was able to keep the job moving to meet my schedule and was able to stay on budget, so there were no unforeseen costs added to the project. ACM would be happy to work with Qual-Air again on future projects.

Kind Regards,

Daniel Fauskey
