# What is Alsaker

*Alsaker: Alsaker (pronounced Al-saw-ker) is a village situated on the Hardanger Fjord in the South West of Norway.*

*Name meaning: Powerful and complete. You are bold, independent, inquisitive and interested in research.*

In 2013, after 15 years experience in the Sydney Real Estate industry, Founder and Managing Director Will Roberts saw a niche in the market where service and value levels had deteriorated - from here Alsaker started.

Whilst still wanting to fuel his passion for Real Estate, Will started buying both commercial and residential property for a wide range of his clients - including Private High Net Wealth Clients, Wealth Managers, Property Trusts, Sophisticated Investors, Private Banks and for Self Managed Super Funds.

By doing this, he started to create a large network of agent contacts which in turn saw him obtaining access to the best properties without market competition and spotlight.

Alsaker are trusted by their extended client base to assist in growing their portfolios. They have been successful due to the way they work as well as their discretion and understanding of their clients need for privacy.

Part of the Alsaker successful strategy is by looking at the broader picture, not just at the numbers.

Alsaker are a team who recognise the true value in individual and personalised service. They pride ourselves in their utmost confidentiality and professionalism and their team of experts deliver the perfect combination of knowledge and service to ensure the best buying experience and property investment choice for all of their clients.

# *Our success and results speak for themselves*

"It was the worst of times. It was the best of times... enter Will Roberts of Alsaker.

For over 12 months we had attempted but failed to buy our 'downsizer home', then we engaged Will to negotiate for us on an apartment we had set our hearts on.

Within a week we had the deal completed at a price we were very happy with, thanks to Wills efforts. He was very engaging, very calm under pressure and very skilled in negotiating.

We highly recommend Will to anyone buying a property."-**Neil & Judy Ross**

"We wanted to take a moment to personally thank you both for the time and effort you put forth on our behalf in attaining our penthouse.

We were both enjoying the magnificent views over a picnic style dinner on the balcony last night where the realization struck us on what a journey this property search actually was.

Your helping us initially define the scope of the search, showing us a wide variety of properties to help narrow the focus, meeting us at locations within our restrictive scheduling, filming interiors of apartments that became available while we were overseas and providing referrals for third party resources to help facilitate the transaction, were all invaluable to us.

We just wanted to let you know that we recognize your efforts, and very much appreciate how they contributed to this excellent outcome.

Thanks again and best of luck in all you do."-**Private Client**

"I have used Will to purchase for both myself and my clients on a number of occasions.

Will has the highest service ethic I have ever come across. Nothing is a problem. No detail is over looked. He is a pleasure to work with.

I and my clients have always received both a great experience and a great deal. The holy grail of an exceptional client experience.

I never hesitate to mention Will to any of my friends, family or clients who are purchasing a property.

Thanks again." -**Paul Barrett**

"Having lived in our current home for 13 years and 'to-ing' and 'fro-ing' as to when was the right time to 'move on' the process became a little daunting and as a result nothing kept happening! Not only could we not decide when to list our property, which agent to use and what improvements to do we simply couldn't agree which meant no decisions were getting made.

Then 'highly recommended', along came Will and Caroline of Alsaker and the rest of the process was stress free, seamless, pleasurable and the whole process completed in a time-frame which far exceeded our expectations.

Will and Caroline's presentations and recommendations were extremely professional and gave us a lot of faith in the process.

Caroline completely took the reins in interviewing local agents as well as organising and negotiating with stylists.

Will was always available at any time of the day and evening to discuss bidding, prices and 'when to stop' ensuring we ended up with our dream home!

We would highly recommend Alsaker and truly believe we achieved the results we did through having their team on board with us. We were able to remain calm both while selling and buying and knew that Will and Caroline had our best interest at heart and were always available to answer any questions we had.

We wouldn't change a thing, can't recommend Alsaker highly enough and would definitely use Will and Caroline's services again if we moved.

Thank you for everything!!!!" -**Peter & Sharon Taggart**

"I hired Alsaker to help me with the negotiation and acquisition of a residential property in Fairlight.

As I was going to be overseas for two weeks prior to the auction and was going to be interstate on the day of the auction, I needed a level-headed and knowledgeable buyer's representative to act on my behalf.

As I already owned the two adjacent properties, this was a property that I had to have at (almost) any price.

Of course, the Vendor's agent knew this as well, so I was concerned that the auction process would be somehow "gamed" so that I would be pushed to pay an over-the-top price.

As the negotiation progressed, I had instructed Alsaker that I was prepared to pay \$2m for the property and had expected that this would be the outcome.

However, after several hours of his discussions with both the Vendors and the Vendor's agent, I was surprised to get a call from them saying that he'd done the deal for \$1.92m, thus saving me \$80,000.

I would recommend Alsaker to anyone who needs an experienced and safe pair of hands to help with their real estate negotiations.

I would be happy to talk to any of their potential clients in this regard."
