Innovative Teaching Grants Guidelines for Grant Applications

Purpose:

Innovative Teaching Grants are designed to encourage, facilitate, recognize and reward innovative and creative instructional approaches to the accomplishment of program objectives. Devine Education Foundation (DEF) is offering teachers and administrators the opportunity to apply for grants to support innovative programs or projects to support higher levels of student learning. The grants must enhance student academic performance and support the objectives, goals, and initiatives of the Campus Action Plan.

Persons Eligible to Apply for Grants:

Individuals or teams of individuals employed by Devine Independent School District who are involved in the instruction of students or related support services benefiting students.

Eligible Proposals:

Instructional approaches or projects designed to begin during the 2023-2024 school year and which meet the selection criteria. Grants may fund instructional and classroom materials, parent involvement programs, or any activity or material which supports higher levels of student academic achievement.

Award of Funds:

Grants will be awarded to individual teacher-initiated programs or projects and/or to campus teams, departments and district-initiated programs or projects. The number and amount of awards will depend on funds available from DEF.

Individual teachers	Up to \$2,500
Multiple teachers	Up to \$7,500
Entire Campus/Program	Up to \$10,000

All monies awarded will stay in Devine ISD.

Selection Criteria:

- The degree to which the grant supports the district goals and the campus action plan and is specifically designed to address an area of need substantiated by data.
- The degree to which student academic performance is emphasized.
- The degree to which sound evaluation procedures are incorporated in the proposal.
- The degree to which the proposal represents a creative or innovative approach to the accomplishment of objectives. Funds are not typically available for recurring programs/projects. (The proposal should address a new project as opposed to one accomplished or under way.)
- The degree to which the proposal is clear and logical, including (a) specificity of objectives; (b) clarity of description of instructional procedures, methods or treatments; and (c) correspondence among evaluative procedures, objectives and treatments.
