

SELECT SERIES MATTRESSES

LCM Lumex® Select Convertible Mattress

The Lumex® Select Convertible Mattress provides outstanding pressure displacement and redistribution to assist in the prevention and treatment of stage I through IV pressure ulcers. Features a Closed System (Static Air) that will quickly convert to an Alternating Pressure Mattress. Eight non-circular cylinders to prevent "rolling" or "gapping" that are fully enclosed in a fiber mesh sleeve and jacket. Air control unit is simple, quiet and set at the optimum 10 minute cycle to eliminate guesswork for the caregiver. The 2.5" Hybrid Visco-elastic top layer does not raise body heat as with standard visco-elastic foam. Stretch cover is fluid resistant, air-permeable (breathable) and reduces friction and patient shear. Use of the Lumex Select Convertible will eliminate the need for costly rental and storage of mattresses that are only used on an as needed basis, moving and transporting mattresses from room to room, and overlays that are low in profile and do not provide adequate support or therapeutic benefit.

- Closed System (Static Air) can quickly convert to an Alternating Pressure Mattress
- 2.5" Hybrid Visco-elastic top layer does not raise body heat as with standard visco-elastic foam
- Air control unit is simple, quiet and set at the optimum 10 minute cycle to eliminate guesswork for the caregiver
- Stretch cover is fluid resistant, air-permeable (breathable), reduces friction and patient shear
- Eight non-circular cylinders prevent "rolling" or "gapping" and are fully enclosed in a fiber mesh sleeve and jacket

SELECT SERIES MATTRESSES

The Lumex® Select Alternating Pressure Low Air Loss Mattress Systems are specialized mattress replacement units that utilize low air loss technology with a specialized mattress design that provides pressure management for the treatment of pressure ulcers. The Low Air Loss Mattress Systems offer "cell on cell therapy", whereby the air cell is split in two where the bottom cells do not deflate if the upper cells are completely deflated in order to provide extra protection and low pressure comfort for the patient.

LS300 Lumex® Select Alternating Pressure

- Size: 36" x 80" x 8"
- 5 Comfort Settings
- Auto Firm Feature
- Fully Zippered Quilted Cover
- Maximum Weight Capacity: 450 lb (EVENLY DISTRIBUTED)

LS200 Lumex® Select Alternating Pressure

- Size: 36" x 80" x 8"
- Quilted Cover
- 12 Minute Alternation Cycle Time
- Soft-Firm Adjustment for patient's optimal comfort choice
- Maximum Weight capacity: 350 lb (EVENLY DISTRIBUTED)

LS150 Lumex® Select Foam

- High Density Foam Mattress
- Firm Side Rails with Soft Heel Section
- Zippered, Stretch Urethane/Vinyl Cover
- Compress rolled for cost effective storage and freight
- Maximum Weight Capacity 400 lb (EVENLY DISTRIBUTED)
- Available in two widths: LS150-35 (35") and LS150-42 (42")

LS100 Lumex® Select Foam

- High Density Foam Mattress
- Convuluted Topper for Excellent Airflow
- Durable, Zippered Nylon/Vinyl Cover
- Compress rolled for cost effective storage and freight
- Maximum Weight Capacity 350 lb (EVENLY DISTRIBUTED)
- Available in two widths: LS100-35 (35") and LS100-42 (42")
