NMRA Partnership Program

The NMRA Partnership Program is a member benefit that truly has a tangible payback. We've partnered with model railroad manufacturers of all sizes, giving them exposure on our website in return for receiving generous discounts for NMRA members all year long. Some provide members with special codes, others prefer a phone or email order, but all appreciate the additional business from our members. And of course, our members appreciate the extra savings...savings that can actually pay the cost of NMRA membership!

To join the Partnership Program as a manufacturer or vendor, please contact us at partnership@nmra.org

At Bespoke Rail, our mission is to honor the legacy and the beauty of classic North American railroad logos and artwork by creating and crafting high-quality products that capture the spirit of the golden age of railroading. The logos and artwork of these once iconic transportation companies represent a rich legacy of workmanship and design, and we strive to preserve and celebrate this heritage through our products.

Our commitment to quality is reflected in every item we offer, which is designed and crafted with the same care and attention to detail as the logos and artwork that

NMRA Interchange N

"A new place to ask questions, provide answers, post events, share ideas and make friends."

The NMRA Interchange is a new place to ask questions, provide answers, post events, share ideas and make friends.

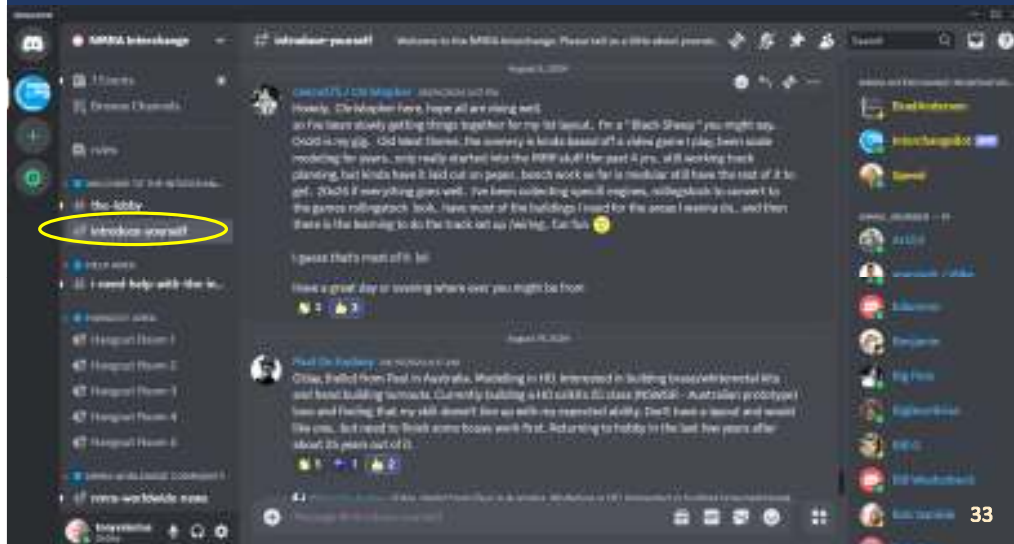

It is implemented as a Discord server and contains categories for welcoming members, a help area, the NMRA worldwide community, the NMRA Board of Directors, each of the Departments, the Achievement Program, Special Interest Groups, the basics of modeling, the prototype (railroads), general interest groups and then each of the 17 regions. Discord also provides, free of charge, the ability to have online meetings with up to 100 people in a "room", sharing screens and up to 25 people showing their camera feeds.

When you join the Interchange Server, the "Automated Bot" will greet you with a message and some instructions on how to get your roles assigned. Without roles, you will only see **Read-Only**, **Rules** and **How-to-guides**. Please spend some time in the **Rules** and **How-to-guides** during the onboarding process while your avatar waits for the email with your personal command and code to paste in.

MODEL RAILROADING ROUNDTABLE

We're offering an exciting new benefit for NMRA Div 7 members - the *Model Railroading Roundtable* (MRR) program. Small groups of modelers gather in a local home or meeting place and learn a new model railroad skill. Those that have mastered the skill host and assist the group to develop that skill in a one-to-two hour session.

The program started in early 2024. Several topics are being offered and scheduled. Those interested in hosting a session can contact **Sam Swanson** at nwides1980@gmail.com to propose a topic and timeframe. Sign-up announcements for each class will be published in the *The Oil Can*. See the **Modelers Aid** page for more details, including a useful pdf attachment.

NMRA DIVISION 7 YOUTUBE CHANNEL

Division 7 has a **YouTube channel** and team that posts videos featuring the modeling skills of local model railroaders. The channel includes member submitted content as well as material created by the division video team. Please check out the channel and subscribe. See also the **Layout Videos** page on this website for more information, details and featured postings. Those interesting in joining this team should contact **David Lamb** or **Bob Adams**.
