The Editors Corner:

Dave Puthoff

In this month's issue you'll find a useful summary of Division 7's Model Railroading Roundtable program, which allows small groups of modellers to learn a new model railroading skill. Details are found on Pages 9-11.

Before long, we'll have our annual Fall Train & Trade Show. Details are found on Page 23-24.

If you have a photo, or a useful tip, or maybe just a useful website that you would like to share, the Oil Can is an opportunity to share it with your fellow model railroaders. Email it to editor@cincy-div7.org.

Dave

The Oil Can is a publication of Cincinnati Division 7, Mid Central Region, NMRA, Inc. Opinions expressed herein are the authors and do not necessarily reflect the opinion of Division 7, the MCR, the NMRA, it's officers, or it's members.

Space permitting, The Oil Can welcomes news items, articles and letters on Model Railroading and related topics. Deadline for submissions is generally the fifteenth of the month preceding the next meeting.

Photo by Pam Moleski

I am sorry that I had to miss July's meeting, but I was confident that Assistant Superintendent Tony Valerius would fill in admirably. I was kidnapped by a dancing Polar bear and taken by force to Titusville, PA., where I was forced to engage in a four day golf outing with 20 other detainees. I escaped on Wednesday and have been recuperating under the guidance of an Orthopedic surgeon and a Psychiatrist. My golf scores were tragic. While doing major landscape changes since returning, I buried my clubs. May they RIP.

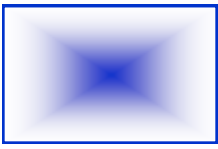

Headway is being made in creating the first "Interactive Orientation" session. I feel very optimistic that many members who have joined in the past two years will attend. The goal is to pass on useful information on utilizing modeling resources available through the NMRA National and Division 7 in an informal and socially conducive environment. Our sights are set on a September presentation. Exact date, time and location will be announced on our website and in September's Oil Can.

In Tony's column on the next page, he urges new members to volunteer to help at our Fall Train Show. As a new member, I volunteered and found it a great opportunity to learn more about the Division's workings. Also, working in concert with other members affords an opportunity to form new friendships with people with like hobby interests. I found the veteran members welcoming and helpful. The experience allowed me to feel comfortable and valued as a new member.

I am now jumping off my soap box and tripping on down to my workshop where I have three projects screaming for my undivided attention.

"Don't wait for people to be friendly, show them how." – Henry James

Chuck

SECOND SECTION

Tony Valerius
Asst. Super

Last month, I discussed in my column all of the ways that everyone can connect and socialize with other members. One of those ways is quickly coming into view. Our annual October Train Show will be here before you know it. At the August and September meetings, John Burchnall will distribute street signs for you to put up 3 weeks before our Show. This is our primary way of advertising our wonderful event to families and the general public. Also starting at the August meeting will be the sign-up sheets for members to help in all other areas of the train show. Those opportunities include: assisting unloading vendors on Friday afternoon or Saturday morning, working at the admissions table, working at the NMRA/Division 7 membership table, assisting with the White Elephant booth, and tear down on Sunday afternoon. These are vital to the success of the Train Show and they are also wonderful chances to socialize and get to know other members. I urge you to take advantage of these opportunities to support the division while fellowshiping with other wonderful modelers who are part of Division 7.

Our July 14th meeting was held at the Kenton County Library in Erlanger, Kentucky with a clinic by John Burchnall & Rich Lach on “Bob Fink’s Dayton Union Railway”. Our AV Team of Merlyn Jarman, Bob Shreve, and John Shields did another wonderful job. Our model and photo contests were Any Passenger Train Car. Our after-meeting layout visits were to the homes of Bob Kress and Bo Sis. Thanks to all who made this meeting another wonderful day for our members. The only negative was, due to Wi-Fi Internet issues at the library that day, we were not able to fully simulcast the meeting on Zoom (some were able to hear the audio). Although it can happen at any time, this was the first time this has happened since we began this operational norm. We apologize for those who had planned to fully tune in that day, but were unable to do so.

Coming Up:

Sunday August 4th – Sunday August 11th – NMRA National Convention in Long Beach, California.

Sunday, August 18th – Our meeting will be held at the Mt. Carmel American Legion Hall with a clinic by Mike Hauk, Division 12 on “Weathering with Oil Paints”. Our model and photo contest will be Dirt or Road Self-Propelled Vehicle. Our after-meeting layout visits will be to the homes of Matt & Debie Snell and Mark Salisbury.

Sunday, September 8th – Our meeting will be held at the Cincinnati Marriott North Hotel with a clinic by Mike Tylick, MMR® on “Chester & Becket Fn3 RR Story.” Our model and photo contest will be Tank or Flat Car. Our after-meeting layout visits will be to the homes of Bill Doll & Larry Bonhaus.

Sunday, October 6th – Our meeting will be held at the Norwood Community Center in Norwood, Ohio with a clinic by Terry Luginbuhl on “Programming DCC Locos”. Our model and photo contest will be Maintenance of Way (MOW) equipment. Our after-meeting layout visits will be to the homes of Jim Stewart and Bill Bramlage.

Saturday October 12th & Sunday October 13th – Our 56th Annual Fall Train Show at Lakota West High School.

See our Division 7 website at cincy-div7.org for details on all our wonderful 2024 activities.

Happy Modeling!

Tony

DIVISION 7 - COMMITTEE REPORTS

August 2024

Superintendent (Chuck Endreola): As a member in good standing of Division 7, you have the opportunity to attend BOD (Board of Directors) meetings. You may voice your opinion and/or introduce new ideas and suggestions. **At this time, the BOD meets via Zoom.** The meetings are held each quarter, and each has a different Zoom link. Contact Tony Valerius, John Burchnall or me each time and we'll gladly email you the link. Hope to see you there.

Recruitment and Retention (John Shields): The “latest” information from National (as of June 29) shows our current count is 233.

We have one new member to welcome from the last month.

Shawn Fenn of West Chester

Thank you to the 9 people who chose to renew their memberships last month.

A question for each of you: Have you ever invited a friend or neighbor to see your layout? Would you consider inviting a friend or neighbor to one of our meetings? Word of mouth is a really effective way to recruit new members. What could we do to make your answer “Yes” ?

John Shields
Qcengineers@aol.com
513-561-8691

MCR Report (John Shields): No report this month

National Report (Frank Koch / Pam Moleski): No report this month

Achievement Program (Frank Koch): No report this month

Car Projects (Paul Maciulewicz): See the Car Project Announcement elsewhere in this Oil Can

Oil Can (Dave Puthoff): Submissions for the September Oil Can are due by August 22.

Monthly Raffle (Russ Poynter): No report this month

Community Service (Larry Bonhaus): No report this month

Modelers Aid (Bruce Knapp / Sam Parfitt): No report this month

Fall Train Show (Rick Crumrine): No report this month

Spring Flea Market Gary Ossenschmidt / Roy Hord): No report this month

Operations Activities (Rick Stern): No report this month

Facebook Page (Pam Moleski): No report this month

Web Site (John Burchnall): Slides from the July clinic are posted on the “How to Articles” page of the “Modeler Tips & Services” tab of our website .

Video Library (Kevin Orcutt): No report this month

YouTube (David Lamb): The YouTube committee is starting our next layout video. Recording of John Listermann’s Baltimore and Ohio Railroad is scheduled. Look for this new release from the YouTube committee in the upcoming weeks.

Cincinnati Division 7's Model Railroading Roundtable Update

We're midway through our initial year of Division 7's Model Railroading Roundtable (MRR) program, which allows a small group of like-interested folks to gather in a local home or meeting place and learn a new skill related directly to the model railroading hobby. To date, we've had four MRRs (a summary of those follows the fall program announcement). Four more MRRs are scheduled for this fall, and described below.

Fall MRR Program

Upcoming roundtables include the following topics and hosts. Detailed descriptions of each follow the summary table.

Month	Host	Topic
August	Mike Tener	Troubleshooting/Repairing Locomotive Problems
September	Sam Swanson	Painting Structures/Details with Acrylic Paints
October	Chuck Endreola	Foam Rock Carving and Painting
November	Curt LaRue	Trackplanning

August MRR

Host – Mike Tener

Topic – Troubleshooting/Repairing Locomotive Problems: decoders, motors, gears, couplers,

Date and Time – Saturday, August 17, 2024 2-4 pm

Location – 4953 Shagbark Court Mason, Ohio 45040

Maximum Number of Attendees – 6

Response – mtener01@yahoo.com

Bring a basic tool kit including voltmeter. We will troubleshoot and repair locomotives that have problems injected into them. If you have an engine you would like to have the group look at, feel free to bring it along. Depending on the experience level of the group we may get into basic electronics as well as some decoder programming or other topics as the group decides. Please respond to me with interest in attending.

September MRR

Host – Sam Swanson

Topic – Painting Structures and Details with Acrylic Paint

Date and Time – Saturday, September 28, 2024, from 2-4pm

Location – 960 Lenox Place

Maximum Number of Attendees – 5

Response – nwindes1980@gmail.com

Bring one small structure and one detail (from junk pile to animal or human figure in any scale) that you'd like to color and weather. We'll go over painting basics, including coloring, staining or washing to add shadows, and drybrushing for highlights. Specific techniques, such as adding rust or weathering, will also be covered (as well as any other topics suggested by attendees). Brushes and acrylic craft paints will be supplied (but bring some of yours if you'd like to discuss certain aspects of your materials). Please respond directly to me if you are interested in attending and be aware we'll be meeting on the third floor, so stairs-climbing is essential. I'll confirm the program via email several days before our Saturday get-together.

October MRR

Host – Chuck Endreola

Topic – Foam Rock Carving & Painting

Date and Time – Saturday, October 19, 2024, from 2-4pm

Location – 1506 Burney Ln. Cincinnati, OH

Maximum Number of Attendees – 6

Response – chuckendreola@yahoo.com

This technique replaces the expense and mess of plaster molds. Ultra lightweight, perfect for removable access, displays, modular and permanent layouts. Any type of rock can be represented with foam. We will look at rock types, strata and color. Several types will be displayed and demoed. Bring a retractable razor knife, dual temp glue gun (only if you already have one) & glue sticks, and any photos or books that show the type of rock faces of the area you are modeling. All else will be provided. Please respond directly to me if you are interested in attending. I'll confirm the program via email several days before our Saturday get-together.

November MRR

Host – Curt LaRue

Topic – Trackplanning

Date and Time – November, 2024 (time and date TBD)

Location – 8110 Timbertree Way, West Chester OH 45069

Maximum Number of Attendees – 6

Response – LCKlarue@aol.com

This roundtable will cover how I designed my model railroad using track charts, maps, railroad documents (such as timetables, CT 1000, and rule books), photos (from books, internet, historical societies, and private photo collections), blue prints, and drawings. Transferring the plan in drawing the track plan full size, along with using structure mock-ups, along with how the layout operates will also be covered.

MRR Program for the First Half of 2024

Bob Lawson, Roy Allan, Ed Swain, and John Listermann hosted sessions at their home. Photos and notes for the MRR gatherings follow.

Bob Lawson hosted the first roundtable of the year in February, where seven attendees discussed planning and building structures and scenes, and saw many examples of Bob's incredible modeling in his relatively new residential space. Bob took us through basic kit, advanced kit, and scratchbuilding approaches, with an emphasis on cost-conscious modeling within a limited budget. He also covered tools, adhesives, paints, and organization of parts, along with arranging scene details (including vehicles, people, and clutter), along with fabricating sturdy structure and diorama bases from insulation foam. Attendees appreciated the insight and wisdom, along observing the hundreds of model examples Bob had on display.

With several of the initial attendees, Bob has continued with weekly work sessions (where numerous techniques, from track work to structure and scene construction takes place routinely). Bob mentioned these weekly gatherings have renewed his enthusiasm for completing the many tasks he has underway
10

Bob Lawson talks about his approach to structure building and scene development (with his many layout and stand-alone dioramas). Photo by Sam Swanson.

Tony Valerius works on Bob Lawson's trackwork as part of the Thursday work sessions (rumored to be called the *Rat Pack*). Photo by Joe Stuber.

Roy Allan and his large-scale caboose model was one of the subjects of his scratchbuilding large-scale rolling stock roundtable. Photo by Sam Parfitt.

Ed Swain leads a discussion of layout planning topics. Photo by Sam Parfitt.

John Listermann completes painting the example backdrop he completed as part of the roundtable. Photo by Nancy Windes.

Joe Ross and Sam Parfitt attended all four of the roundtables and have been a good source of information regarding content and approach. Your MRR interest and participation is much appreciated. Photo by Roy Allan

DIVISION 7 - ANNOUNCEMENTS

Awards presented to Division 7 Members

Roy Allan Receives Achievement Program Merit Awards earned at the 2024 MCR Convention in Cleveland

Shane Stephens receives 2023 Junior Division 1st Place Photography Award earned by in our Monthly Division 7 Contest.

DIVISION 7 - ANNOUNCEMENTS

Great Northern Railway Operating Session on August 17 at 7 PM (Saturday)

NOTE: Contact Sam Parfitt prior to attending, in order to confirm the Operating Session. --- Ed.

GNRW ops is on the 3rd W/E Saturday.

Pizza at 6:30-7:00.
Please email if attending.

NEW POLICY:

Since there's not a lot to do outside our homes related to railroading, those who wish to have a 'one-on-one' or with own friends to operate the layout during the month, please email or call.
Being retired, I spend the bulk of my time in the basement so visitors are always welcomed. Thanks.

NEW PROJECTS:

Installed decoders in several more engines. A selection of 100 engines can now be done.

Mission Statement: Main theme of my railroad (besides modeling the Great Northern Railway): when building the railroad, I wanted to model mainline running with big time steam and 'scale like' trains of 25-45 cars on single track mainline with passing sidings.

USUAL STATS:

Time: 1938. All steam and electrics. The GN railway is a point to point railroad, 400' mainline with two 400-500 car yards at Seattle, Wash and St Paul, Minn, each having 20+ track turntables and one staging yard holding 300 cars. Minimum radius, 48" with #10 turnouts. Track all hand laid on individual wooden ties. 100% scenery.
Four track 12' ore dock.

For pictures see:

<http://ogrforum.ogaugerr.com/topic/great-northern-railway?page=1>

Video:

<https://www.youtube.com/watch?v=tOb7SgZTLWA>

The Operating session is also listed in the NMRA MCR div 7 web site:

<https://cincy-div7.org/events.html>

Junk food and beverage will be available

Thanks

Sam Parfitt

DIVISION 7 - ANNOUNCEMENTS

Division 7 Car Project (Limited Edition!)

Cincinnati Division 7's Car Project Committee is pleased to announce the availability of our latest, limited-edition car project!

Using Accurail's 2200 Series ACF 2-Bay Covered Hopper as the basis, we are offering it in a Norfolk & Western repaint scheme.

These cars are N&W class HC-46 and are from an original batch of fifty built in 1966 by ACF and were painted in the Round Herald paint scheme.

Sometime subsequent to that some cars went through a general maintenance program where they were repainted in the block N&W livery. Photos were found showing that at least three of these cars (road numbers 170753, 170768 and 170794) were reweighed at some later date because that area is "patched out" on the car with the new data displayed. Those same photos place these three cars as being in service in 1992 and 2004! It is these three, highly unique, road numbers that Cincinnati Division 7 is now offering for sale.

As with all Accurail cars, they are in kit form only.

Pricing is \$25 per car, or a 3-car set at \$70. Shipping (via USPS Priority) is \$9.20 for one car and \$16.25 for two to three cars.

Ohio residents, please add 7.8% sales tax on the **total price of the kits and the shipping and handling fee.**

I received these cars the week of 9/12. Heritage and purchasing details are posted on our Division 7 web site.

You can also send me a check or money order in US dollars, payable to Cincinnati Division 7, MCR, NMRA, to:

Cincinnati Division 7 Car Projects

c/o Paul Maciulewicz

9151 Congress Court

West Chester, Ohio 45069

DIVISION 7 - ANNOUNCEMENTS

The following is a Car Project from New Jersey Division 3 of the MER

Paul Maciulewicz

New Jersey Division

**PRICE NOW \$20 PER CAR! HURRY WHILE QUANTITIES LAST!
SHIPPING COSTS REMAIN THE SAME**

New Jersey Division 50th Anniversary Gondola

50th Anniversary Gondola

A review of the cars. They are \$35 each, or a set of two for \$65. Car numbers are 1968 and 2018, which was the year that the New Jersey Division was founded and the year we celebrated our 50th anniversary. The model is from Tangent Models and is a superb model of a 52'6" Riveted Drop End Gondola with 70 ton trucks. The placement of the brake wheel on the side is an identifying feature of a drop end Gondola. They're ready to run and come with Kadee couplers.

We acquired equal amounts of the two car numbers. Cash or check will consummate the deal and you'll be hauling stuff around your layout in no time!

These are excellent looking and beautifully running cars, but, a car not decorated for a prototypical railroad, they do have the look of a gondola that you might see in any train consist from the 1930's to the 1980's.

To order cars Contact Mike Prokop at njwrr@aol.com or by mail use the Order Sheet. USPS Priority Mail postage is: \$9 for one car and \$10.75 for two cars.

The Reporting Marks "NJD" for this car identify the owner as the New Jersey Division and the "X" designates a Private or Non-railroad owner.

This Stencil indicates the Gondola is in Assigned Service to Roebling Steel. It must be returned to Roebling after its load has been delivered.

The car body is black with white lettering and data conforming to the 1950s

The cost is \$35.00 for one car or a set of both numbers for \$65.00

A check made payable to the NJ Division must be included

DIVISION 7 - CLASSIFIED ADS

As a benefit to Division 7 members, the Oil Can will offer to list free Classified Ads to allow members to sell railroad-related items. A few other Divisions offer such a program. The Board will periodically re-evaluate the program. If you have items to sell, please review the Rules, and send an email to editor@cincy-div7.org

CLASSIFIED AD RULES:

Item(s) must be railroad related.

Seller must be a Member of Division 7 MCR NMRA.

Listing description shall be 30 words or less.

Item(s) can be displayed for a maximum of three (3) months. Oil Can Editor will assign a Listing Number that will include the last month of listing. (E.g., "xx-July 2015" would indicate Listing xx will be listed through the July 2015 Oil Can).

Seller must list name, and either Phone Number and/or Email, so the interested Buyer can contact Seller. It will not be listed without them. **(NOTE: Seller agrees to allow contact information to be published in the Oilcan, which is published on the Internet).**

A single photo may be submitted for each listing.

Limit of three (3) listings from same Seller at any one time.

Seller shall email Oil Can Editor if item is sold so it can be removed from page.

All transactions are between the Buyer and the Seller.

Oilcan Editor reserves the right to edit listing if needed, and will notify Seller of edit prior to publication.

Chance to Win a Model Train Set!

Must fill out door prize slip. One entry per paying attendee. Need not be present at drawing.

For more info see www.cincy-div7.org – For tables contact rhord@fuse.net

Everyone's Help Needed - Fall Show Street Signs

Our large corrugated plastic street signs are extremely important in informing everyone about our 56th Annual Fall Cincinnati Model Train Show on October 12-13, 2024. Besides word of mouth, this is the only way new general public attendees find out about our wonderful show. We'll be placing 200 signs this year and **we need your help to do this**. All the signs are 2 ft x 4 ft, each with 4 all-new straight metal wickets, and come with a small helpful instruction sheet.

We have 10 teams placing 6 to 8 signs each in specified zones within about 8 miles of Lakota West High School. Those areas include much of West Chester, Liberty Township, Fairfield, Hamilton, Mason, Springdale and Sharonville. We also have other members who place 1 to 3 signs elsewhere in our division. **We need many more of you all around the division to step up and do likewise**. It's very easy and quick to place 1 to 3 signs, no one has ever gotten in trouble doing so, and there are plenty of suitable locations out there.

We hope you'll agree to place one, two or more of these signs. To volunteer, all you need to do is see me at the Aug or Sept Division meetings, or email or phone me with your best phone number and how many signs you want. Your signs will be available at our Aug and Sept meetings, or by other arrangements with me. Here are some details –

- Place your signs between about Sat, Sept 21 and Sat, Sept 28
- Place signs in highly visible locations but very importantly outside of road right-of ways and not at busy intersections - otherwise they could be removed by local authorities (and don't worry if they do)
- Best locations are vacant commercial lots, friendly businesses, schools, friends or neighbors, preferably in mulched or seldom mowed areas, or flush with fences or railings where mowing crews won't disturb them
- Use a hammer to pound the short end of the 4 wickets into the ground in a line, then place the sign base edge on the ground next to the wickets, mark where each wicket is, then slip the sign over each wicket into corrugations at the marked points (prevents split flutes), slide the sign down to within about 2 inches of the ground to resist wind – make sure you use all 4 wickets per sign to also better resist high winds
- Remove your signs on either Sun night, Oct 13 or by Tue, Oct 15 - we need to be good community stewards
- Do not return the signs, as we'll print new ones with new dates next year - use them for your projects, recycle them or throw them away - you can return the metal wickets to me if they are clean and straight

Also, at the Aug, Sept and Oct meetings, Rick Crumrine will have flyers for you to take and post. You can also download and print those flyers from the Events tab of our website. Post them in friendly schools, churches, places of work and businesses (barber shops, grocers, hardware stores ...). Finally, be sure to talk up this family fun Cincinnati Model Train Show with your neighbors, friends and family!

We thank you in advance for your help in this very important and easy to do matter! I look forward to your immediate reply via email or phone.

Super Bowl Feb 11 Easter Mar 31 Mothers Day May 12 Fathers Day Jun 16 N.Ga.Conv. Sep 11-14 *contest details on website Rev. July 20, 2024 JBB

What's in a Name?

Several years ago one of our Division 7 members moved to North Carolina, I didn't think too much about his move, only I would miss him at our meetings. About a year later, a new modular group calling themselves The Ohio Valley Sipping and Switching Society, displayed at our annual fall show. We had a brief discussion with the young men and pointed out that our work group was The Ohio Valley Gentlemen Sipping and Switching Society. We were questioned by this group, "How dare we steal their name?" and "Who had authorized it?" Merlyn, Keith, Frank (our resident MMR) and I had been using that title for at least 15 years. To keep peace in the Division, Merlyn suggested we become the "Sunday Outing Boys". To make this story a bit shorter (I hate typing), we have decided to keep our original name, so the good old "O,V,G,S,& S,S." is back, working on the Santa Fe Raton Division.

More Progress on the Raton Pass

We now have two work groups on my layout, the rejuvenated O,V,G,S,& S,S, and Tony Valerius and Chuck Endreola. I have to pick up 2 sheets of 5/8-inch plywood (we are extending the road to Raton), plus 2 sheets of Pink insulation. My first group came last week, and managed to straighten up some of the damage done by our plumbing problem. I am still trying to connect my DCC system to the entire layout. (more fireworks?). I am also getting rid of much excess equipment.

A Wonderful Tribute

Member John Burchnall and Division 3 Member, Rick Lach, presented a wonderful presentation about Bob Fink, MMR[®], and his beautiful model railroad, the Dayton Union Railway. Rick and John spent an incredible amount of time doing the research necessary for the quality show. I can't in any way do this presentation the credit it deserves, but these gentlemen honored the layout and its builder in the way both richly deserve. Well done gentlemen!

Our August Meeting

I hope to see everyone at our August meeting. Another outstanding clinic, and of course, Russ and I will still pick the winning tickets at lunch before the meeting.

Keep 'Em Rolling,

Bruce

Next Meeting

2 PM Sunday August 18

Mt. Carmel

American Legion Post 72

497 B Old State Route 74

Cincinnati OH 45244

Directions:

From I-275, take Exit 63B
Then State Route 32 West
Turn Left onto Mt. Carmel Tobasco Rd.
Turn Left onto Old State Route 74
Hall is on your left

From Route 32 West, take Old State Route 74
Hall is on your right

NOTE: Some GPS devices may incorrectly locate the address as "Outside" of I-275. The correct location is "Inside" of I-275, toward Anderson Twp./ Mt. Washington
