# ABOUT US

We are an independent company led by a team of award-winning filmmakers from around the globe, who have come together, bringing our ideas into the stories we tell. We are currently based between Mexico and Wales but continue to work on international projects without borders.

Our films have so far allowed us to work with established award-winning actors, allowing us to have our projects screened at reputable international film festivals and certified by PGA and BAFTA.

- COMMERCIALS/MEDIA

# WHY CHOOSE US?

We provide a full service with over 20 years' experience working on film / TV productions both in-front and behind the camera.

We offer expertise knowledge on productions, ranging from the development process to post production and will work closely with you every step of the way to ensure we capture your vision, taking a simple, yet effective approach at an affordable rate.

**There's always a story to tell, allow us to do it for you.**

## OUR SERVICES

### PRE-PRODUCTION

Pre-production is the planning stage of a project, where we will discuss ideas and create a concept draft before producing content. We will finalise the script, hire the actors and crew, find locations, determining what equipment you'll need, and figure out the budget best suited to your needs.

### PRODUCTION

After pre-production is complete, shooting can commence. Shooting time varies between projects, and the type of project you're making (short or feature-length) will determine the length of the production phase. We will organise and schedule each project and determine the best timeline.

### POST-PRODUCTION

This is where the stories come alive. We will work with the audio and visual team to ensure each frame perfectly captures your vision. These elements are woven together to create a multi-sensory experience.
