ANNOUNCING THE NEW U.S. FIELD ARTILLERY HALL OF FAME

On 18 May, 2022 the United States Field Artillery Association will induct the first round of honorees into the new U.S. Field Artillery Hall of Fame. The class of 2022 will include 33 past honorees of the USFAA Musical Tattoo and three living Medal of Honor Awardees who served in the Field Artillery. In addition to those 36 individuals, ten inductees have been chosen for this new distinction.

The United States Field Artillery Hall of Fame was designed to recognize with distinction a wider array of Field Artillery men and women, across various branches, of assorted ranks, and civilians or volunteers who have contributed greatly to the branch. There was also a need to recognize those former Red Legs who served and then, using the core values of the FA, went on to reach the top levels of their chosen profession. While the HOF is not as illustrious as the Musical Tattoo, this platform allows us to honor more than one inductee each year, from a wider field of qualified candidates. In future years, the Tattoo Honoree will automatically be inducted into the HOF.
