**I come in the righteous name of I-Moon Mathematics.**

**I'm from the**

**H-Medina cipher (Houston, Tx),**

**This is a coloring book I made for the babies of our nation.**

**The reason why I made this coloring book was to be EQUAL by adding on to our nation by giving the babies ONE of the most important things that I learned, which is SUPREME MATHEMATICS.**

**Supreme Mathematics is the law and order of the universe.**

**The science of Supreme Mathematics is the key to understanding man's relationship to the universe. Now the importance of knowing Supreme Mathematics is to know EVERYTHING in this world by first identifying its proper order because you never want to put your two (Wisdom) before your one (Knowledge).**

**Which is a term we use in this Nation which means acting before knowing .**

**This leads to confusion and sad results.**

**Therefore it is important to do the KNOWLEDGE**

**( look, listen, observe, and respect) before you make any decisions in life, that way you can make the best choice's which brings about the best understanding.**

**That is in fact the best part of life.**
