BY: I-MOON MATHEMATICS

PEACE

I come in the righteous name of I-Moon Mathematics.

I'm from the

H-Medina cipher (Houston, Tx).

This is a coloring book I made for the children of our nation. The reason why I made this coloring book was to be EQUAL by adding on to our nation by giving the youth an important tool that I learned, which is SUPREME ALPHABETS.

Our Supreme Alphabets are flexible.

They are the LANGUAGE OF THE LAND

Now the science and importance of knowing Supreme Alphabets is to know how to use your words properly and Supremely Well. The babies are always doing the Knowledge.

Our Supreme Alphabets are one of the most important parts of the culture. Knowing the language automatically enables someone to identify with whoever speaks the same language. It's a way to connect and build with others, advocate national consciousness, create community control and be rewarded ultimately with Peace and Happiness.

PEACE !!!

ABOUT THE BUILDER

I-Moon Mathematics is one of the great young builders here in H-Medina (Houston, Tx).

She is part of the H-Medina Youth Office and assists with coordinating all activities for the youth at our cipher events.

This is one of her works she created for the Second Annual 2024 Children's Day in H-Medina.

She did a tremendous job showing the science of equality by creating a body of work that the children of this nation can utilize which is their language, Supreme Alphabets.

I-Moon Mathematics is 11 years old and is the moon (daughter) of the great God Born Mathematics Allah and Queen Jackeya.

She was born in Gary, Indiana (Gods Island), and moved to Houston (H-Medina) in 2017 at the age of 5.

Since then she has been actively adding on to the cipher.

She currently attends Rhodes Performing Art School, a prestige school in Houston where she has completed her first year. Here she will have a platform to perfect her skills in dance.

She is also a tremendous big sister to her two younger brothers Gykee Born and Prince Messiah.

Not to mention she is the true definition of a Five Percenter.

I-Moon Mathematics is on the 29th degree (1-40), and is well on her way to completing 120 . She loves this culture to the fullest, and shows and proves the best parts through her actions daily.

All Praise due to her and her family for continuing the cycle of

building, and teaching civilization to all walks of life ... PEACE !
