

GROUND ELECTRIC HOLIDAY PUZZLER

What a year! Mark has been so busy, he can't even remember what he did last week. Can you use logic to figure out which client had which job, and on which day?

1. Mark replaced the knob & tube wiring before installing the ceiling fan and upgrading the fusebox.
2. Luna's project happened after Olive's and Hendrix's, but before the outlet repair.
3. Shelly was not the last job.
4. Dill, who did not have a broken outlet, did not see Mark on Monday.
5. Mark reset the GFI before he was able to help Dill.
6. Hendrix was excited to upgrade from fuses to circuit breakers, and happy that they did not have to wait until Friday.

	Mon	Tues	Wed	Thurs	Fri	GFI	Ceiling Fan	Knob & Tube	Fuse Box	Outlet
Shelly										
Olive										
Dill										
Luna										
Hendrix										
GFI						<p>Thank you for your business & referrals!</p> <p>We wish you a healthy & happy 2022!</p>
