OUR “SEMI-PRIVATE” COUNTRY CLUB

We are established as a semi-private country club. Meaning the club is owned and governed by its members, but also offers full service golf to the public.

This structure allows us to provide a private golf club feel and amenities to our members, and affordable golf and relaxation to the public as well. Our full club members enjoy unlimited golf and cart usage for them and their families. They also own a share of stock in the East Palestine Country Club

MEET OUR GOLF COURSE MANAGER & SUPERINTENDENT

Rick Kyler has been our Golf Course Manager and Superintendent since 1995, and is the lifeblood of our club. Growing up next to the property, Rick takes exceptional pride in our golf course and complex. He is pretty good at helping you read a putt you may be struggling with as well!

Not only is Rick instrumental to the pristine condition of our golf course, but he is also the face of our club for our members and retail customers. From banquet hall rental to golf outings & group bookings, Rick is a big reason why everyone keeps returning to EPCC!
