Contains Manuka Honey

We have consulted the **Vegan Society** (the body that issue the vegan symbol on products) and they have advised that the formal definition is as follows:

“Veganism is a way of living which seeks to exclude, as far as is possible and practicable, all forms of exploitation of, and cruelty to, animals for food, clothing or any other purpose.”

In this case, the entirety of our Tanning Collection is **vegan-friendly**, along with 10 of our 11 Skincare Collection and all of our Warm Wax. The Miracle Mask was too good to leave out, however the farming of the Manuka Honey is sustainably sourced from New Zealand, with no bees being harmed in the harvesting process.

More extreme vegans will omit ALL animal products from their everyday life, regardless of how they are sourced.
