

Dairy Practices Council

*55 Years of
Collaboration*

NADRO Meeting – Tucson, Arizona - Tuesday, July 16, 2024

Rebecca Piston

Past President, Honorary Life Member, and Eugene T Wolff Award Recipient

~ Interim Executive Vice President!

Thank you Roland
& the AZ Team!

Northeast Dairy Practices Council & Dairy Practices Council

2024 marks 55 Years!

Objectives of the Council

- Develop and disseminate **educational guidelines** for the dairy industry, especially as related to proper and improved sanitation and production of high quality dairy products, and to:
- Provide mutual assistance internationally, and among states, provinces, countries and territories in adopting **sound, uniform, and improved procedures concerning the production, processing, and distribution of milk and dairy products, especially as related to sanitation and high quality products.**
- The intent of these objectives is a **cooperative effort of Industry, Education, and Regulatory.** The further interest is not to duplicate, but to cooperate with any other organization which has similar goals.

DPC Annual Conference

- The **3-day conference** takes place each Fall. Usually starts the day after election day in November - the Executive Board has recently experimented with timing and conference schedule.
- **Educational component** with experts speaking on current topics impacting the dairy industry
- **Task Forces meet concurrently** and provide a forum where topics of common interest can be shared with the members & other attendees

DPC Financing

- Financed by **Membership Dues:**
 - Various levels of **Sustaining Membership** based on company / organization size and needs
 - **Individual Access Membership**
- **Workshop Revenue** - education on current topics
- **Conference Revenue & Sponsorships**
- *Supports the distribution of DPC Guidelines and educational materials to the Dairy Industry in the US & throughout the world.*

Task Force VI Small Ruminants

To develop guidelines
pertaining to all
aspects of production
and processing for
dairy goat, sheep and
other small ruminant
operations.

Guideline Development

Three step development process:

1. *White cover* - a Guideline developed by the task force and is in draft form and open to revision.
2. *Yellow cover* - a Guideline completed & ready for final review by “*Key Sanitarians*” in each state who can insert footnotes and recommend changes if their state standards & regulations differ.
3. *Green cover* - a Guideline in final copy & ready for distribution

Your Input and Involvement Matters

Recent Guideline Development & Revision

- **51 Controlling the Accuracy of Electronic Testing Instruments for Milk Components**
- **38 Preventing Off-Flavors in Milk**
- **89 Food Safety Modernization Act (FSMA) Preventive Controls Guidance**
- **90 On-Farm and Small-Scale Dairy Products Processing**
- **95 HACCP Principles #6 and #7, Establish Verification Activities and Records**
