

the rumours

Emerging from the Midwest, two of the raddest and badass chicks in Iowa aka The Rumours. This dynamic duo takes no shit and you'll see that on and off the stage. Unapologetic. Fierce. No-nonsense. Ok, a little nonsense – but they take no prisoners.

In their 8 years together, they've played all over the U.S. – Opened for acts like Joan Jett & The Blackhearts, Amyl & The Sniffers, Local H, Electric Six, Goddamn Gallows, Koffin Kats, to mention a few. Of course The Rumours are influenced by some fellow rebel girls. Already mentioned, Joan Jett, Amyl & The Sniffers, but also Betty Blowtorch, Veruca Salt, The Donnas, The Cramps, Bikini Kill, The Gits, L7, Lunachicks, GEL, and so many more. Even some dude-fronted bands – like, C.O.F.F.I.N., The Spits, Supersuckers, Motörhead, Sex Pistols, Electric Six, Local H, etc.

On their touring escapades they've made their way into venues like the Whisky-A-Go-Go in Hollywood & First Ave in Minneapolis. They've toured nationwide on their own, but also have extensively toured with Supersuckers. And finally! The Rumours are making their way overseas with plans to take over the U.K. For these goils it's kill or be killed, so step up to the front row and watch The Rumours make their mark in rock n roll.
