

## **Proposed Princeton Permit Parking Petition**

We the undersigned live on the streets surrounding the Princeton High School and object to the proposed permit parking plan presented by the Princeton Permit Parking Task Force on April 17, 2021. This plan will replace a permit system that has been in place for many years and serves the neighborhood well. It will create additional cost impacts and place time limitations for parking on the street for tax payers who need to utilize parking in front of their homes. In effect it creates parking issues and financial and logistical burdens for the homeowners where there currently are none

Further, we find the surveillance of the neighborhood by a roving vehicle that captures and processes license plates, and is managed by a for-profit vendor, very troubling.

We urge our representatives to abandon this plan.
