STATEMENT

6

7 This resolution requests the United States Congress to designate
8 the “Kindness All Around” symbol as the National Symbol of
9 Kindness.

10 Scientific research demonstrates that individuals who perform
11 acts of kindness toward others reap both physical and psychological
12 health benefits. Additional studies suggest that individuals who
13 have been on the receiving end of kind actions are more likely to
14 act altruistically toward other people.

15 Students in the Transitional Kindergarten class at Tropical
16 Elementary School on Merritt Island, Florida created the “Kindness
17 All Around” symbol as part of a classroom service learning
18 initiative called Together Kind. As part of this project, the students
19 designed four options for a symbol representing the trait of
20 kindness. The goal of this project was to create an easily-
21 recognizable symbol for kindness, much the same way
22 contemporary culture has symbols for love and peace. The class
23 utilized email and social media to ask the public to vote on the best
24 kindness symbol. Over one thousand respondents from 25 states and
25 two countries voted, with the “Kindness All Around” symbol
26 determined as the winner. The symbol, a heart shape encircled by
27 interconnected arrows, is the centerpiece of the students’ public
28 campaign to share the symbol and have communities and states
29 designate the “Kindness All Around” symbol as the official symbol
30 of kindness. Furthermore, over 3,000 people from all 50 states, the
31 District of Columbia and Puerto Rico have signed a petition urging
32 Congress to adopt the “Kindness All Around” symbol as the
33 National Symbol of Kindness.
