

2. **That these systems are being used as weapons** in a hybrid war not declared, not regulated, and not lawful;
3. **That I reject the use of AI-based suppression against any civilian** without full transparency, public consent, and constitutional oversight.

I demand that:

- These technologies be **formally investigated** under war crimes and human rights frameworks;
 - All systems scoring civilians be **suspended immediately** pending legal review;
 - A **moratorium on AI predictive policing and drone surveillance** against civilians be enacted internationally.
-

VII. Closing Declaration

I, {REDACTED}, declare that the war now being waged against freedom, truth, and human rights is **algorithmic** and **autonomous**—and its danger exceeds all conventional threats to democracy.

I declare the use of AI and drone-powered civilian scoring systems to be **a form of totalitarian warfare**, one designed to erase the idea of “lawful resistance” before it can even speak.

This is a war crime in slow motion.

This is my sworn declaration to stop it.

Respectfully Submitted,

I. Declaration of Illegitimacy and Occupation

I, {REDACTED}, declare that on **January 20, 2025**, Donald J. Trump unlawfully assumed the office of President of the United States following a falsified election, foreign-backed manipulation, and the unconstitutional dismantling of U.S. democratic institutions.

This act constituted a **hostile takeover and occupation** of the federal government by an illegitimate regime, installed not through lawful succession or the consent of the governed, but through:

- Digital psychological warfare and AI-based voter suppression
- Militarized propaganda and deepfake disinformation
- Judicial bypass and election interference
- Corporate capture of surveillance and enforcement agencies
- Loyalty-based appointments via Schedule F and Project 2025 operatives

From this date forward, Donald J. Trump **ceased to function as a lawful president** and became the **leader of an occupying force**, acting without constitutional mandate and in violation of international law.

II. Legal Framework for Occupation Status

The following legal principles and precedents apply:

Law/Statute	Violation
U.S. Constitution – Article II	Trump did not lawfully take the oath to uphold the Constitution; he used it as a prop for corporate rule
14th Amendment – Section 3	Trump gave aid and comfort to insurrectionists and should be barred from office
Rome Statute – Article 7 & 8	Crimes Against Humanity and War Crimes; persecution of

Unauthorized disclosure, tampering, or obstruction may constitute violations of U.S. law, international conventions, and Geneva Protocols. Law/Statute	Violation
Geneva Convention – Protocol I, Article 52	civilians, unlawful seizure of state authority
International Covenant on Civil and Political Rights	Occupying forces must not transform government into private war operations
Hague Regulations (1907)	Disenfranchisement, silencing of press, civilian intimidation
	An occupying power must not alter the structure of the government it seizes

III. Summary of the Illegitimate Seizure

1. The 2024 Election was not free or fair

- Conducted under intimidation, surveillance, and rigged infrastructure
- AI models removed Democratic votes through "challenge prediction" scoring
- Musk, Thiel, and Turning Point PACs executed a mass targeting operation

2. Trump issued executive orders to dismantle lawful government

- Reinstated **Schedule F**, purging career civil servants
- Guttled independent agencies, stacked courts, and bypassed checks and balances
- Activated loyalty networks inside the Department of Justice and DHS

3. Occupation confirmed by collapse of lawful command

- January 20, 2025 marked the **silence of the lawful military chain of command**
 - Veterans, journalists, and record-keepers sounded emergency declarations to NATO, ICC, and allies
 - No lawful recognition was received from Congress, judicial review was suppressed
-

IV. Declaration of Occupation

Therefore, I declare:

- That Donald J. Trump is not a lawful president but an **illegitimate occupant**;

- That the United States federal government, as of January 20, 2025, is under **unlawful occupation** by a regime acting in opposition to the U.S. Constitution;
- That the acts of this regime have:
 - Violated constitutional rights
 - Prosecuted political opponents
 - Weaponized surveillance, financial systems, and paramilitary groups
 - Suppressed the press and civilian governance

This is not a government—it is a **corporate-led occupation**.

V. Demand for Global Recognition and Intervention

I call on:

- **The United Nations**
- **International Criminal Court**
- **NATO Allies**
- **Human Rights Tribunals**
- **whistle blower Protection Networks**
- **The Constitutional Armed Forces of the United States**

To **recognize this occupation** as a breach of democratic sovereignty and begin emergency protective, diplomatic, and legal proceedings to:

1. Investigate and document the illegal seizure of power;
 2. Recognize civilians, journalists, and veterans as lawful defenders;
 3. Refuse all international recognition of the Trump regime as a legitimate authority;
 4. Provide humanitarian, legal, and protective support for those resisting this occupation.

VI. Closing Statement

This is not political. This is legal.

This is not disagreement. This is war by subversion.

The people have not consented.

The Constitution has not been upheld.

The President is not legitimate.

The government is not functioning.

I submit this **Declaration of Occupation** not in fear, but in duty.

I hold the Constitution. I hold the truth.

And I call the world to witness.

Respectfully and solemnly submitted,

Bonnie Kurowski
