Election Interference Timeline Involving Trump, Vance, Musk, and Thiel

Year	Key Activity	Role in Rigging Infrastructure	Primary Actors Involved
2014–2015	Cambridge Analytica begins psychographic targeting work on U.S. voters	Origin of AI-driven voter profiling systems	**Thiel (Palantir), Bannon, Mercer**
2016	Trump uses Cambridge Analytica + Facebook data for precision targeting in the 2016 election	First known psychological warfare-based U.S. election interference operation	**Trump, Bannon, Thiel (advisor)**
2017	Palantir expands into DHS; predictive policing software scaled	Tools that would later be used in domestic voter suppression were built here	**Thiel, ICE, DHS**
2018–2019	Musk begins aligning platforms (Tesla, SpaceX) with surveillance capabilities via Starlink, AI integration	Starlink tested for movement mapping and field data relay	**Musk, Palantir adjacent tech**
2020	Substack, Twitter/X, and Telegram used to map and score influencers, including journalists	Social listening + suppression infrastructure deployed	**Musk (acquires X later), Thiel-linked firms**
2021	JD Vance receives Thiel funding to run for Senate; Narya Capital ramps up AI and suppression tech investments	Narya invests in Anduril, Clearview AI, VoterScoring tools	**Vance, Thiel**
2022	Florida and Texas GOP begin experimenting with USPS change-of-address data to flag voters	Early voter purge operations in swing states	**DeSantis, Bondi, PACs aligned with Trump/Vance**
2023	Project Gotham and Project 2025 infrastructure go operational	Fusion centers + loyalty scoring quietly tested	**Trump, Vance, Musk, Thiel**
April 2024	Florida special elections show signs of AI-predicted voter suppression, USPS data abuse, and facial recognition at polls	First real-world test of full-stack rigging infrastructure	**Trump PAC, Vance team, Musk canvassers**
Nov 2024	Presidential Election: Real-time voter suppression using behavioral targeting, loyalty coin incentives, and mail-in fraud	Mass-scale election rigging using pre-positioned tech and predictive voter control	**Trump, Vance, Thiel, Musk**
Jan 2025	Trump and Vance unlawfully inaugurated; begin implementing loyalty-based governance and digital	Final phase of regime installation via manipulated electoral outcomes	**All four**

Year	Key Activity	Role in Rigging Infrastructure	Primary Actors Involved
	scoring		
Feb–June 2025	Voter loyalty coins, suppression of dissent, financial reward/punishment systems enforced	Regime transformation from electoral democracy to AI-managed authoritarianism	**Trump, Vance, Thiel, Musk**

Summary of Involvement

Actor	Primary Role
Donald Trump	Political front; enabled legal cover and declared "wins" despite rigging
JD Vance	Financial strategist; managed investments into predictive policing, voter suppression tools
Peter Thiel	Infrastructure architect; funded and built Palantir, Clearview AI, Anduril
Elon Musk	Platform integrator; supplied satellite, canvassing, and behavioral telemetry via X and Starlink
