Subject: Request for Emergency Action and Investigation Under Global Jurisdiction – Donald J. Trump’s Use of Military Force Against Civilians Following Illegitimate Occupation of Government

Dear INTERPOL General Secretariat,

I am writing to formally request **international investigation and immediate coordination** under INTERPOL’s legal mandate to prevent war crimes, crimes against humanity, and acts of domestic terrorism now crossing into international jurisdiction.

We are at war in Florida and LA California. He is putting both the National Guard and Military against the people. We need help now!

Summary of Situation:

Former U.S. President **Donald J. Trump** is:

- **Illegally occupying the role of Commander-in-Chief** despite having been declared illegitimate via official record declarations and constitutional succession failure.
- **Ordering unlawful military force against civilians**, including planned deployments in California and other states in response to public protest.
- **Acting in defiance of multiple international laws and treaties**, including the Geneva Convention, ICCPR, and Rome Statute.

His actions are facilitated by:

- A **parallel paramilitary command** involving private contractors, foreign-paid cyber units, and rogue U.S. agencies.
- Financial laundering through cryptocurrency (Project Gotham, Liberty Coin).
- AI-targeted psychological and biometric warfare against civilians.

Jurisdictional Grounds:

- **Rome Statute, Article 7 & 8** – Crimes Against Humanity, War Crimes.
- **Universal Jurisdiction Principle** – International responsibility to prevent genocide, torture, and politically motivated persecution.
- **Geneva Convention Protocol I**, Articles 51–54 – Civilian protection from military attack.
- **Interpol General Assembly Resolution AGN/53/RES/7** – Political crimes intersecting with terrorism and human rights violations are not exempt from international cooperation.

Request for INTERPOL Action:

1. **Register Donald J. Trump and named associates in INTERPOL Red Notice Watchlist** under war crimes, unlawful military activity, and terrorism statutes.
2. **Issue an alert to allied nations** to monitor and halt military contractors, crypto transactions, and command chains linked to this unlawful operation.
3. **Establish cross-border coordination** with the International Criminal Court, United Nations, and domestic whistle blower protection networks.

A full evidence dossier will be sent under separate cover, including:

- Signed declarations of war and unlawful occupation.
- Financial trails connecting foreign powers.
- Surveillance data and policy coordination orders linked to suppression tactics.
- Affidavits and declarations from public officials, journalists, and constitutional legal scholars.

Conclusion:

Donald J. Trump's refusal to relinquish power and the use of U.S. and privatized military forces against unarmed civilians is a **violation of international law** and a **threat to global peace**. This requires immediate attention and coordinated enforcement through INTERPOL's framework.

I respectfully request confirmation of receipt and status of this investigation.

Sincerely,

Bonnie Kurowski
