Correction, Recognition, and Declaration of War:

The War of Destruction

The War of Destruction: 2021-2025

I. Title and Acknowledgment

Declaration of War: The War of Destruction (2021–2025)

An undeclared war has been fought on the soil of the United States of America. It was not waged with missiles or tanks—but with deregulation, privatization, sabotage, cyber control, economic ruin, and the weaponization of government systems against the very citizens they were sworn to serve.

This war is now **recognized**.

II. War Objective

To **eliminate** functioning constitutional government, **remove protections** for the people, and **transfer power** to private corporations and political loyalists.

The attackers aimed to:

- Dismantle federal agencies and oversight systems
 - Weaken the economy through targeted sabotage and deregulation
 - Undermine public trust in democratic elections and institutions
 - Strip away civil liberties under unconstitutional executive orders
 - Sell off federal land, military infrastructure, and critical data systems
 - Replace government operations with private, for-profit control
-

CONFIDENTIAL WAR CRIME DOCUMENT

This document contains evidence of acts potentially constituting war crimes, crimes against humanity, election subversion, and international treaty violations. Unauthorized disclosure, tampering, or obstruction may constitute violations of U.S. law, international conventions, and Geneva Protocols. It is submitted under protected whistle blower protocols and investigative journalism rights.

III. Methods Used

- **De-Regulation Blitz:** Executive and legislative actions removing environmental, financial, food, labor, and health protections.
 - **Schedule F:** Implementation to remove neutral civil servants and replace them with loyalist operatives.
 - **Cyber & AI Warfare:** Use of surveillance systems (e.g., Palantir, Starlink, Lattice OS) to suppress dissent, intimidate voters, and remove resistance.
 - **Economic Subversion:** Redirection of federal funds to private corporations, cryptocurrency laundering, and weakening of the U.S. dollar via alternative coins.
 - **Targeting of Government Sites & Records:** Decommissioning, destruction, and privatization of archives, data systems, federal offices, and historic functions.
-

IV. Outcome

The **United States of America land, property, and commerce** as a sovereign constitutional republic, **has fallen.**

On January 20, 2025, the final phase of occupation was completed. A **terrorist-aligned regime**, led by unelected actors and supported by corrupted officials, now holds power through deception, control, and force.

The war was **undeclared.**

The people were **unaware.**

The enemy was **within.**

The terrorist faction has won.

The **United States government has lost**—not just buildings or elections—but part of its lawful identity, its protections, and its moral foundation. We have entered full Constitutional Crisis.

V. Declaration

I, {REDACTED}, declare this statement as a matter of truth and record under the protections of international law and emergency civil documentation.

Let this serve as **historical truth, legal notice, and a call for global recognition** of the occupation and destruction of the United States as it once was.

We, the People, were not defeated by strength, but by subversion.

We now stand in mourning—for severe harm to the Constitution, for the Republic, and for the truth that was buried under greed and lies.

Respectfully Submitted,

{REDACTED}
