

Welcome to Domaine Saladry – Summer 2021

For your safety and security we would like to assure you that our cleaning programme is in line with standards recommended to safeguard against the COVID 19 Coronavirus. The gîtes are properly cleaned and sanitised between bookings, as is the outdoor furniture allocated to each gîte.

The swimming pool is maintained to excellent standards of water quality and uses chlorine for disinfection. The chlorine is automatically monitored and added to maintain effective levels of disinfection. The pool water is checked daily with manual water testing also.

In your gîte:

- There is a disinfectant spray under the sink for general use in the kitchen or bathroom.
- There is antibacterial, alcohol based hand sanitiser spray at the gîte entrance – just spray on your hands and leave to dry.

Outside dining:

- The dining areas are distanced from each other and 1 table is allocated to each Gite
- There are shared seating areas around the grounds. Please spray with sanitizer when leaving the shared areas.

By the pool:
