

Hydration Station

We understand the environmental impact of coffee production so it is important to us to use **sustainable, fairtrade** coffee beans in the production of our coffee.

You won't see any instant coffee here!

Only the best specialty coffees using user friendly self service screens

All our drinks are served in china cups or sustainable disposables.

We also provide the option of bottled water or our fruit infused water kilner dispensers offering improved hydration and increased nutrient intake.

Along with a selection of fresh fruit juices
