## About Us

Conjoint Export Services Near East Ltd was founded in 1958 under the name of Conjoint Representation Limited. The word “conjoint” was chosen as the company title from the Oxford Dictionary definition meaning “united or associated” as it clearly highlighted the main aim of the Company which was to provide overseas sales representation by the UNITED efforts of British Manufacturers whose products are closely ASSOCIATED

Trading in the 21st Century, Conjoint – an ISO9001 accredited company – continues to expand across the globe offering export services predominantly to the Middle East with affiliated offices in Kuwait, Saudi Arabia and the UAE as well as parts of South America and the Far East. With an unrivaled geographical spread and an international network of suppliers, we service our clients worldwide throughout strategic locations.

Conjoint is a leading supplier of hand, cutting and power tools of the world’s top brands, mainly from Europe and the USA. We also deal in gaskets and sealing products, hand cleaning products and sanitisers. Our oil and gas division supply end-users with a vast range of items – from small electronic devices, valves, instrumentation, to customised hydraulic cylinders from Douce Hydro. Conjoint also specialises in factory consumables, raw materials and spare parts associated with the fibre-glass industry and cast-iron pipe manufacturers.

We continually extend our portfolio of manufacturers ensuring our clients receive products of the highest calibre. We serve our customer base by offering a comprehensive service, to source, consolidate and ship our customers’ needs. We supply a complete documentation package, securing the safe arrival of customers’ goods.

Our sales staff travel to the Middle East and other markets regularly in order to promote products and also to get regular feedback from our agents, distributors and users about the products and services offered. We attend overseas trade fairs independently as well as those orchestrated by the Middle East Association and the UK Department of Trade and Industry. We are affiliated to the Surrey Chamber of Commerce and the Arab-British Chamber of Commerce .

## Our Services

The complete service of Export Marketing and Shipping Consultants means that the Importer is buying at the lowest possible price ex-works/f.o.b. obtainable from the manufacturer, having the advantage of ordering from several different manufacturers, with the combined order being invoiced and shipped as one consignment.

The advantages to the Importer are immediately obvious:

- Savings on freight and Consular documentation charges
- One Letter of Credit or banking transaction
- One Insurance
- One Customs entry for clearance and delivery at destination

The opportunity to utilise container services to realise substantial savings on freight and minimise damage to goods in transit

Conjoint Export Services assist in local marketing of their Principals' products and supports the Importer / Dealer in overseas markets by regularly exhibiting in local shows. Since our formation, we have exhibited in either specialised or International Exhibitions held in Algiers, Baghdad, Bahrain, Beirut, Cairo, Damascus, Dubai, Jeddah, Riyadh, Tripoli-Libya, Muscat-Oman, Doha- Qatar, India & Vietnam

We offer effective supply chain management, a rapid response with an extensive inventory and wide product range from low value consumables to high value items.

We continue to develop our business capability, all of which ensures that we deliver a quality, efficient out-sourced service.

With an unrivalled geographical spread and an international network of suppliers, we service our clients worldwide from strategic locations.
