Forest County Immunization Benchmark Rates- Protecting Community Health:

Crandon, WI, July 2, 2025- The Forest County Health Department monitors bench mark immunization rates for children 24 months of age. The current benchmark goal for Forest County is for 58% of 24-month-old children to have received all recommended vaccination for that age. According to our data, 83% of children 24 months of age, received timely vaccinations as recommended by the Wisconsin Department of Health Services.

Thank you to our health partners for assistance in meeting this goal.
