

Our mission is to create a loving Christian learning environment where children can grow socially, academically, and emotionally.

Our staff has over 30 years of experience working with preschool and young school age children and their families. The school is directed by an engineering graduate that has experience teaching and working with children, ages preschool through high school.

We pride ourselves in introducing our students ages 3+ to a weekly STEM learning experience as well as introducing the arts, music, and movement to all students.
