KOLLAB YOUTH WORKFORCE DEVELOPMENT PROGRAM PARTICIPATION

Kollab Youth is pleased to have you participate with our fabulous **ACCREDITED** Kollab Youth Workforce Development Program

Your support and participation are essential in the youths' development and preparedness to entering the workforce and future employment opportunities including your organization. Together, we're making sure that every young person has the technology, training, work experience, and mentorship they need to succeed. These interactive learning spaces help teens explore technology, discover new interests, collaborate with one another, and prepare for the future.

KOLLAB YOUTH TEEN SUCCESS SUMMIT 2022

A promising future for our communities is directly tied to a highly skilled and educated workforce. It is imperative that we give students a strong foundation to be equipped for the jobs of tomorrow.

THE KOLLAB YOUTH SUMMIT is an all-day event that includes workshops to strengthen our youths' minds AND how to be proactive about personal goals and professional success, personal empowerment, AND professional development.

We focus our efforts on motivating students to be prepared for higher education, promoting technology-based learning and encouraging success in science, technology, engineering, arts, and math (STEAM). Our global economy requires students to not only have a quality education, but also a strong understanding in STEAM.

It is a trans-formative day for the teens as they learn to break down personal boundaries and rise to the level of success they deserve.

PARTNERSHIP OFFERS – Your Company Exclusive Engagement

A special session with your company about its culture and philosophy and job opportunities.
