

SEGUIN DRIVELINE SERVICES

612 E. KINGSBURY STREET, SEGUIN, TX 78155 – SEGUINDRIVELINE.COM

1 Piece Shaft - using existing Slip Yoke & Regular Rear Pinion Yoke

Note: Measurements must be taken with the vehicle at normal ride height with the wheels on ground or differential loaded (wheels not hanging on lift).

Take all length measurements from vehicle - NOT the old driveshaft.

Note: OE Ford 8" and 9" Pinion yokes can use either a 1 1/16 or 1 1/8 cap diameter. This is only a 1/16 difference but is critical that this is checked carefully. Call if you have any questions on this.
