DirectSaudi.com connects quality **suppliers of building material and furniture with Saudi **buyers** - *directly***

About Us

Why European Brands are in high demand within Saudi Arabia

Apart from the obvious quality aspect, there are many other reasons that make European brands highly attractive and desirable.

Design innovation, the tradition of craftsmanship embedded with pride, as well as reliability and superb service all contribute to make European building materials and furnishings both special and valuable.

Serious suppliers keen to gain market share of the vast Saudi developments will find the site simple to use and effective in promoting their business.

Use of sustainable materials from recyclable sources, as well as care for the environment and overall green-earth policy further enhances the desire for European brands within Saudi Arabia.

Why European brands struggle to break into the Saudi Market

European business practices differ from those of the Middle East. The former prefer facts followed by action. Local businesses on the other hand prefer to build relationships, spend time getting to know the seller and their products, all awhile without committing to any buying.

DirectSaudi removes cultural barriers and diverse business habits to focus just on selling and buying. No time wasting.

To succeed within Saudi Arabia involves 3 simple steps as follows:

1. Confirm interest in the Saudi market – *register your company at DirectSaudi*
2. Ensure material samples are locally available – *send samples to our design hub*
3. Provide an attractive offer to invite buyer interest – saving cost is the key feature of DirectSaudi.

The complexity of selling European products within Saudi Arabia is now simpler than ever.

Who We Are & Why We Started DirectSaudi

We are a group of professionals who have lived for many years in the Gulf region, currently work in the interior design and construction industry, and have vast experience in procurement within Saudi Arabia. We have been importing European interior products and furniture for over two decades.

We strongly believe that quality products contribute significantly towards making interior constructions projects more successful.

DirectSaudi was created to remove as many barriers, agents, & distributor fees as possible, thus making European products better available & more affordable

Making Direct KSA a subscription-based service means we are not chasing commission and sales incentives from Suppliers, nor do we need to add-on costs to the buyers. DirectSaudi is an ideal medium that serves both seller and buyer, *directly, quickly and easily.*

Selling a quality brand at a premium price is now simple and easy in Saudi Arabia.

Services

Get Your Company Registered

With dozens of giga projects, 100s of mega projects and 1,000s of construction projects underway in Saudi Arabia for at least the next 10 years, it will be hard not to be able to find buyers for your products.

There are more than 250,000 hotel keys under plan and many under construction, 600,000 residential dwellings being built, 1,000s of commercial, health, education, and retail facilities being developed across the Kingdom of Saudi Arabia.

Our audience is made up entirely of buyers looking to purchase quality products directly and to save.

Our policy is to have a limited number of products listed to provide maximum sale opportunities, don't miss out. Register now, list your company details and get in touch to see how we can help.

Registration costs **€4,500 per annum**. Start the journey to unlimited potential sales [here...](#)

Showcase Your Products On-Line

DirectSaudi is an on-line virtual exhibition, operating 24/7 year long. Vendors deal directly with buyers. You receive payment in advance prior to any order, and before dispatch you must receive 100% settlement.

Present your products to the right audience ready to purchase

Most of the world's best architectural, design and consultancy firms are already active within Saudi Arabia. These include Foster & Partners, Zaha Hadid, Gensler, HOK, ATKINS, AECOM, JLL, DTZ, Turner & Townsend, to name a few

We can assist in importing, clearing and delivering directly to your client. We have local interior designers, consultants, and sales agents ready to help close deals and place orders on your behalf. We can also provide installation and fixing services if needed.

Showcasing your products and special offers Virtually on-line is included when you register...click [here...](#)

Present Your Products In-House

Material samples, architectural kits, interior sets, actual furnishing and finishings can be delivered to your prospects on the same day. Welcome to our Riyadh Design Hub where you can house all your goods.

Displaying your products in our Riyadh based design hub greatly boosts sales. Invite potential clients and meet with them here. Arrange all your presentations right in the centre of Saudi Arabia and effectively close deals.

DirectSaudi helps both buyers and sellers to quickly and easily trade – no agents

Designers, Architects, and clients all like to feel, touch, smell and literally see the materials before proceeding with the order. Our design hub is both large and spacious enough to provide this essential service. We also have lockers and storage facilities available for samples and material design kits.

Showcasing your products in our Riyadh Design Hub is **FREE** for the first month, then charged per sqm...click [here...](#)

Why the sudden increase in demand for interior materials, finishes, and furniture in Saudi Arabia.

Known as the Saudi 2030 Vision, enormous growth & construction initiatives are being built all over the vast lands of Saudi Arabia. For the next 10-20 years, Saudi Arabia's remarkable need for resources, building materials, and infrastructure support is unparalleled and eclipses any existing comparable economy.

The value of this massive investment is estimated to be US\$1.6 trillion. The following list offer a glimpse of construction projects already underway, with links for more information. Importantly, strict building codes and demand for carbon neutral, green-earth produced quality materials are part of the Vision, hence the attraction as well as value of European products.

Developments, construction, building, and demand for all interior materials, finishes, and furniture is soaring throughout Saudi Arabia. Unparalleled demand for quality and reliable suppliers of European interior materials remains in place now and is projected to grow exponentially in the coming years.

High quality residential dwellings are being built in unprecedented scale and numbers, world-renowned restaurant brands from across the global hospitality industry are opening across the country, numerous luxury hotel names are being developed all over Saudi Arabia at breathtaking speed.

If you are interested to sell your products in Saudi Arabia, it is an ideal time to qualify your company and list your products for sale. Providing an attractive offer or incentive will boost awareness of your company and attract higher buyer attention.

King Abdullah Economic City

King Abdullah Economic City (KAEC) is a vision-ready investment destination that features a fast-growing manufacturing and logistics hub within a modern environment that is home to world-class urban living and tourism experiences, making it a key enabler of Vision 2030. KAEC is a 185-square kilometre city anchored by King Abdullah Port. Over 100 multinational and Saudi companies have already established a home in KAEC, with more than 130,000 dwellings completed and ready to welcome residents.

Jeddah Historic District

Jeddah Historic District is home to many diverse markets and more than 600 historic buildings with distinctive architecture that reflects the resourcefulness and adaptation of its people to their environment. Under the supervision of the Ministry of Culture, the Jeddah Historic District program leads the efforts in the regeneration of the historical centre of Jeddah (Al Balad). Its aim is to establish it as a hub of culture and the arts, and an international heritage destination. It is being developed with careful heritage architecture.

Saudi Boulevard Foundation

[The Sports Boulevard](#) is one of Riyadh's mega projects extends through the city of Riyadh, connecting Wadi Hanifa in the west to Wadi Al-Sulai in the east through Prince Mohammed bin Salman Road, with more than 135 km to become the largest linear park in the world. It includes pathways for pedestrians, cyclists, and amateurs, as well as horse trails and other sports facilities.. The project aims to make Riyadh one of the most liveable cities in the world, consists of residential, commercial and cultural facilities.

King Salman Park

[King Salman Park](#) sits at the heart of Riyadh. As the largest urban park in the world, it will offer a wide range of activities and experiences for visitors of all ages. The Park's scale includes residential, retail, sports and cultural events, artistic and recreational activities, while its relaxing environment enables visitors to experience nature. The Park also includes an Islamic style garden, vertical gardens, a sanctuary for 2.2 million locals living who can reach the park within a 15-minute walking distance.

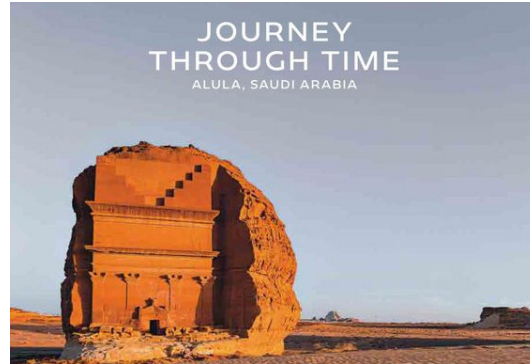

Diriyah

This \$62.2bn development, a giga-project under [the Public Investment Fund](#), offers a unique opportunity to visit, live, work, shop, dine, and celebrate the wonder of the birthplace of the Kingdom's rich heritage and culture. Designed to be a sustainable landmark, Diriyah is delivering initiatives focused on water conservation, energy efficiency, wellness, culture and heritage preservation, and climate change resilience. This new city is 100% walkable, promoting a healthy population

Al Ulaa

With over 200,000 years of history, including the Nabataean city of Hegra, the ancient Kingdoms Dadanite and Lihyanite, and AlUla Old Town, AlUla's rich heritage and bright future are open to explore. [The Royal Commission for AlUla](#) is committed to a responsible approach to the area's urban, economic, and heritage development. Initiatives across archaeology, tourism, culture, education, and the arts are open for this extraordinary destination to the world, all remarkable natural and historic character

Qiddiya

[Qiddiya](#) is a global entertainment, sports, and culture hub in the making, the largest the world has ever seen. It will be an epicentre of entertainment, sports and culture, welcoming locals & tourists. It will provide sports arenas, concerts and fun venues, academies for sports and the arts, racetracks, outdoor and adventure activities and family-friendly theme parks – including a Six Flags theme park and a water theme park, both offering rides and experiences never seen before.

KAFD

The King Abdullah Financial District (KAFD) is an urban city situated in Riyadh. Spanning more than five million square meters and designed by leading global architects, the city within a city is a thriving business and lifestyle hub. KAFD's 94 buildings include Riyadh's tallest skyscraper. The site was designed as an interconnected vertical city. Alongside government entities, premier tenants include Saudi Aramco, Goldman Sachs, BNP Paribas, PepsiCo and Pfizer Saudi. By 2024 most of the towers will be ready for tenants.

The CUBE

The building, which the Saudi Government Public Investment Fund claims would be large enough to hold 20 Empire State Buildings, is part of new downtown in Riyadh. It will sit at the intersection of King Salman and King Khalid roads to the northwest of Riyadh, over an area of 19 sq. km. The plan involves building 104,000 residential units, 9,000 hotel rooms, 980,000 sqm of retail space, and 1.4 million sqm of office space. There will also be 1.8 million sqm of space dedicated to community facilities

NEOM

Neom encompasses an area of around 26,500 square kilometres in northwestern Saudi Arabia. It is a giga project with a \$500 billion budget. The area is bounded by the Red Sea to the south and the Gulf of Aqaba to the west. It is considered one of the largest developments in modern times, with a \$500 billion budget over the next 3 decades. It comprises 9 mega projects including the Line, Trojena, Sindalah, Oxagon, Leyja, Epicon, Aquelleum, Zardun, and Norlana. When completed it will house 2.3 million residents.

Riyadh Downtown

Riyadh Downtown Development Program is a manifestation of comprehensive development concept adopted by the Royal Commission for Riyadh City since its establishment. The program aims to transform Riyadh downtown into a national historical, administrative and cultural centre. It includes new areas for development of residential, commercial as well as cultural amenities. The scale of Riyadh Downtown is truly breathtaking in numerous areas of ambition and architectural innovations

ROSHN

Launched in 2020, ROSHN is dedicated to supporting the ambitious goal of 70% homeownership by 2030 and is doing so by making positive contributions to the nation's real estate and infrastructure sectors. A giga-project under the Public Investment Fund, ROSHN is blazing a trail as the Kingdom's premier real estate enabler, dedicated to enhancing the quality of life for all citizens. Under construction are more than 400,000 homes, 2,400 schools, in addition to retail, commercial and public spaces.

The LINE

A cognitive city stretching across 170 kilometres, from the epic mountains of NEOM across inspirational desert valleys to the beautiful Red Sea. A mirrored architectural masterpiece towering 500 meters above sea level, but a land-saving 200 meters wide. It will eventually accommodate 9 million people living on a reduced infrastructure footprint, creating never-before-seen efficiencies in city functions. The ideal climate all-year-round will ensure that residents can enjoy the surrounding nature.

The Red Sea

The Red Sea Project is a mega-project on the west coast of Saudi Arabia. It is a luxury destination tourism part of the 2030 vision. Started in 2016 and progressing according to schedule, its phased hotel opening, and operations will start in 2023 and continue until 2030. On completion the Red Sea aims to operate 50 hotels with over 11,000 rooms, more than 2,500 residential dwellings across 25 islands and six inland sites. All with careful conservation development & with LEED certified construction.

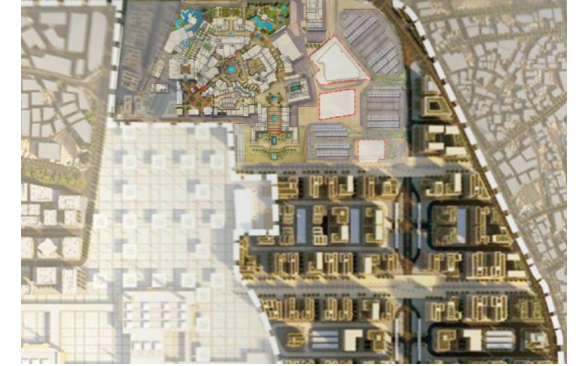

Jeddah Central

Designed to preserve Jeddah's rich heritage while embracing modernity, Jeddah Central features an Opera House, Museum, Sports Stadium, and an Oceanarium, a marina, beach resorts, restaurants, cafés, diverse shopping centres, as well as residential living areas. The \$20 billion mega project will develop 5.7 million sqm in the heart of Jeddah. The development includes 2,700 hotel keys, 17,000 residential units, and multiple entertainment and shopping districts as well as office zones.

Rua AlMadinah

Rua AlMadina project aims to provide a rich lifestyle with a spiritual atmosphere for visitors and guests from around the world in Al-Madinah Al-Munawarah. Emphasizing its importance in facilitating services, enhancing accommodation near the Prophet's Mosque, and offering the best hospitality, the project aims to improve well-being and enhance the quality of life. The project's building designs and facilities draw inspiration from the city's heritage, showcasing its religious, cultural, and historical significance.

Our projects include hotel, palaces, commercial offices, government, showrooms, residential buildings and private villas.

At Kingkus, we make design happen. For over a decade, Kingkus has been at the forefront of architectural design and fabrication, delivering groundbreaking, award-winning products and custom projects, working in collaboration with architects and interior designers around the world.

Optima is an international leader in glass partitioning systems and solutions

Following the formation of the United Arab Emirates, The GIBCA Group of Companies was founded in 1975. Quick to recognize the potential and eager to participate in the development of the young nation, GIBCA set out to become a major entrepreneurial and business force. Many international corporations were waiting on the doorstep to share in the expansion of the area and companies were approached and encouraged by GIBCA to be part of the exciting business developments.

Acoulite is a leading distributor of lighting and acoustic solutions in the Middle East. Starting from humble beginnings in 2005, it now employs over 60 people with offices spanning several Gulf states and Kuala Lumpur. We have a dedicated team of designers, engineers, technicians and project managers, who have a proven track record of delivering the best lighting design and acoustic solutions from concept to completion.

江苏美格®地板有限公司
