AM-PRO **Industrial Co.**

CERTIFIED COMPANY

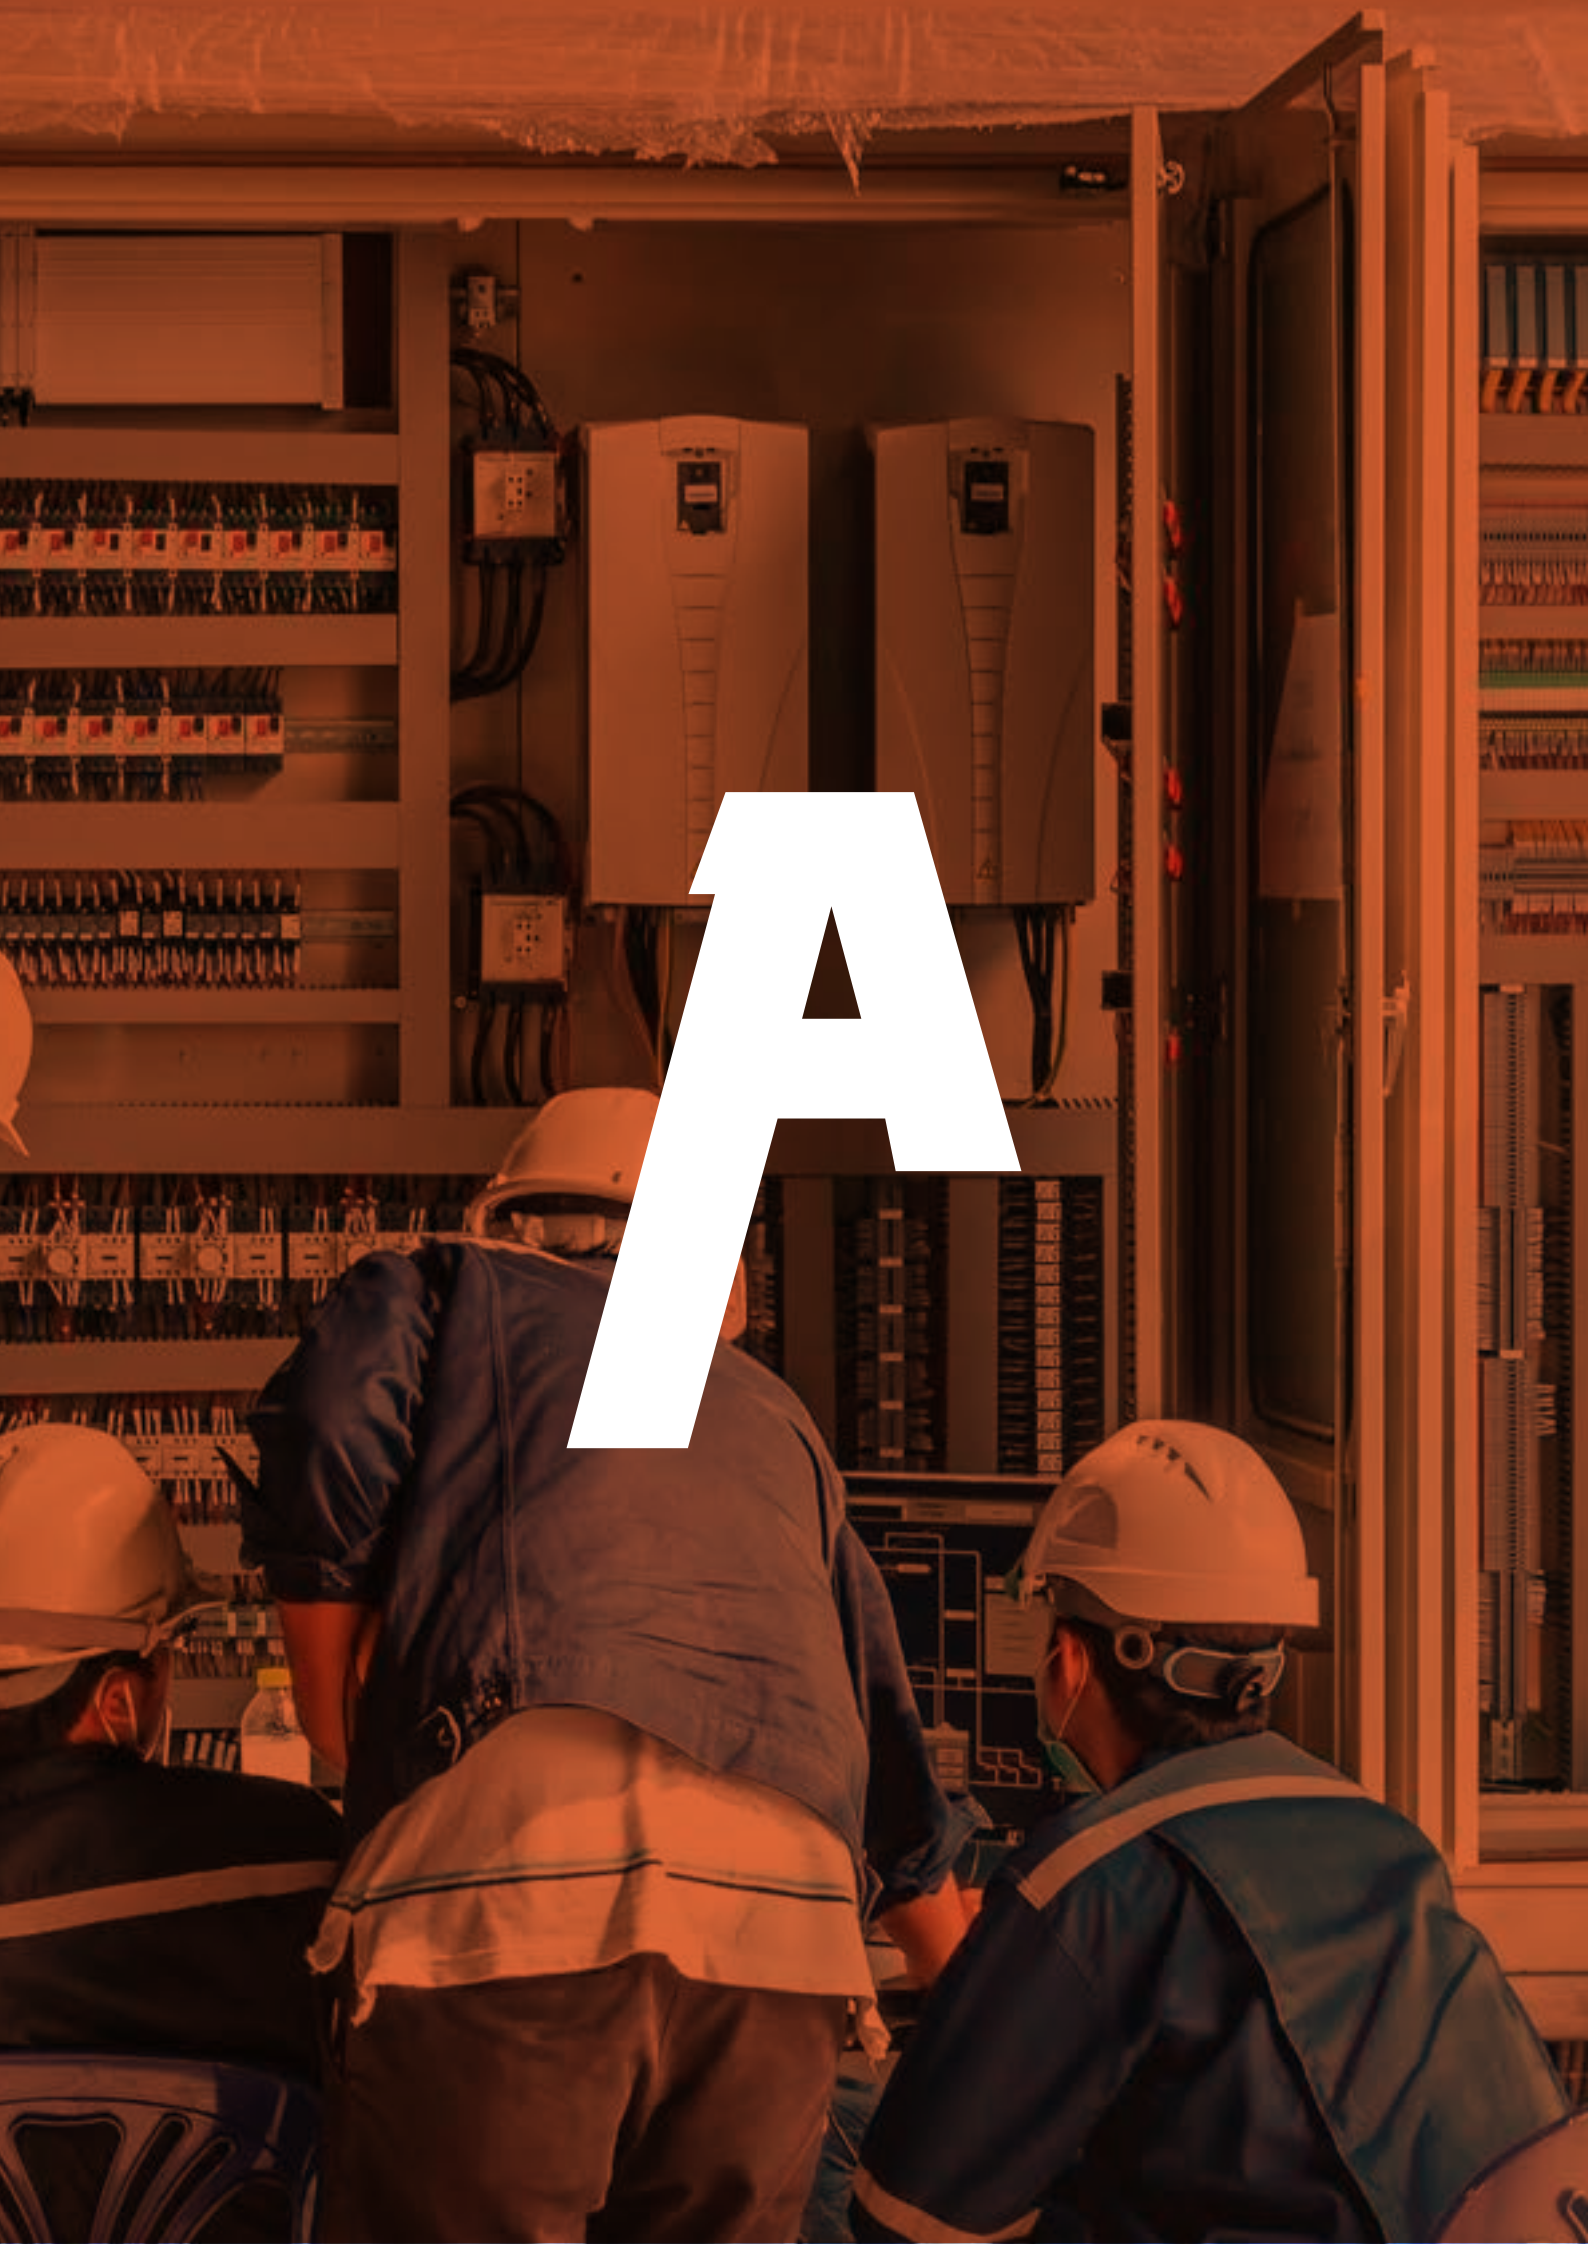

ABOUT AM-PRO

AM-PRO INDUSTRIAL CO. is an electrical panelbox manufacturer that was founded in late 2021. Initially, the company offered its services in Electrical panelbox. However, due to high demand in the market, the owner decided to purchase machines needed for manufacturing of panelboards, and AM-PRO INDUSTRIAL CO. was born.

Our aim is to produce electrical panels using updated facilities and technologies, and we have a team of capable and responsible personnel to ensure that we make a negligible share in the industry development. Our team of experienced personnel enables us to offer a wide range of services, including manufacturing, designing, estimating, and commissioning installations.

VISION

Our company's vision is to become an internationally recognized brand by providing our customers with value-added solutions that help them achieve their business goals in our highly competitive market. We strive to continuously improve our products and services to meet and exceed the expectations of our clients. Our commitment to excellence and innovation drives us to be a leader in our industry, while maintaining the highest standards of integrity and ethical conduct."

CORE VALUES

Affordable
Pricing

Excellent
Customer Service

Practices

Quality
Workmanship

QUALITY

We are committed to producing the highest-quality products and services, and we hold ourselves to the highest standards of performance and excellence.

CUSTOMER SATISFACTION

We place a high value on building strong relationships with our customers, and we strive to exceed their expectations in every interaction.

INNOVATION

We are always looking for ways to improve and evolve, and we encourage creativity and new ideas to drive our business forward.

RESPONSIBILITY

We take responsibility for our actions and the impact they have on our customers, employees, and the environment.

ETHICS

We are committed to conducting our business with the highest level of integrity and honesty.

“ Our focus is on the customers
and improving their experience.

We believe that if we do that well,
competition, prices, and profits will all
take care of themselves. ”

CONTROL BOXES

Control Box

Photo shows the Control Box or Merging Panel of ERA sub-station of Davao Light.

Control Box or control panel enclosure which contains important electrical components that control and monitor a number of mechanical processes.

UNITIZED PANEL

Unitized Panel With ATS

Unitized Panel Board - is an electrical equipment that consist of different panel boards placed compartmented in an enclosure.

Automatic Transfer Switch or ATS - is type of transfer panel used with a diesel generator to automatically switch between the mains and generator in the event of a power failure. The generator will start / stop automatically depending on the mains supply.

NEMA

NEMA1

Materials: Galvanized Iron

Thickness: 1.3mm to 2.0mm

Powder Coat

Finished: Wrinkle, Smooth, Semi Glossy, Glossy

Top Coated to resist Corrosion

according to Client's requirements

NEMA3R

Materials: Galvanized Iron

Thickness: 1.3mm to 2.0mm

Powder Coat

Finished: Wrinkle, Smooth, Semi Glossy, Glossy

Top Coated to resist Corrosion

according to Client's requirements

NEMA

NEMA4X

Materials: Stainless

Thickness: 1mm to 1.5mm/
according to client's request

Finished: Hairline, mirrored/
according to client's request

Type: 304 - for the reason that its
corrosion resistant in many different
environments.

From the start, AM-PRO Industrial Co. manufactured to the highest standards of quality and reliability. Our state-of-the-art manufacturing facilities use advanced technologies and strict quality control measures to ensure that every product meets the highest standards of performance and safety.

In addition to manufacturing, Am-Pro also offers installation, testing and commissioning services for our products. Our team of experienced technicians can handle every aspect of the installation process, from start to finish, ensuring that your electrical systems are installed correctly and meet all relevant safety and performance standards.

FROM CONCEPT TO COMMISSIONING

AM-PRO EXPERTISE

FROM SENSOR TO CEO

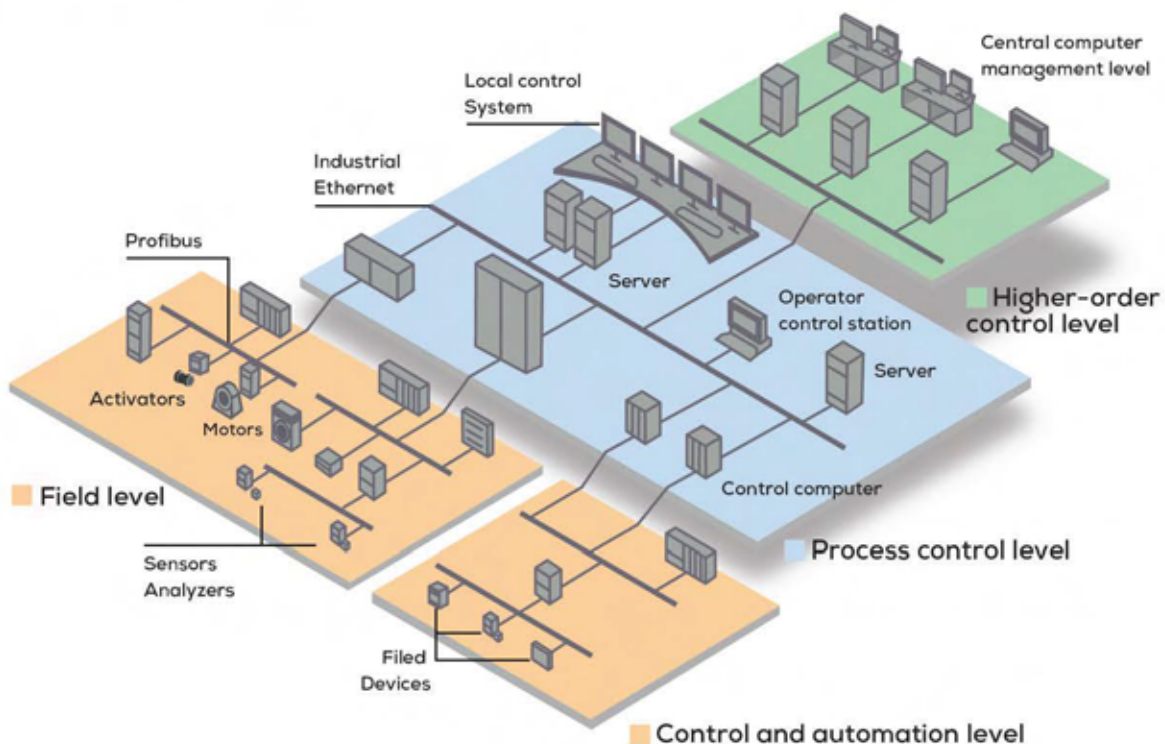

Integration of automation and information technology for complete interoperability.

SENSOR COMMUNICATION AUTOMATION
INFORMATION TECHNOLOGY

We are able to integrate all four technologies across three levels of integration (Strategic, Operational and Floor level) to create a scalable system that works seamlessly to optimize your business processes.

PROCESS CONTROL & AUTOMATION

Our solutions range from a single PLC/SCADA system to highly redundant distributed control and Safety shutdown systems, seamlessly integrated with plant information management, maintenance management, manufacturing execution, and enterprise resource planning systems.

Field Bus Network & Devices

Scada/PLC/Historian systems

Batch Automation

Distributed Control System

Integrated MCC & Energy Management

Integrated Safety

Plant Asset Management

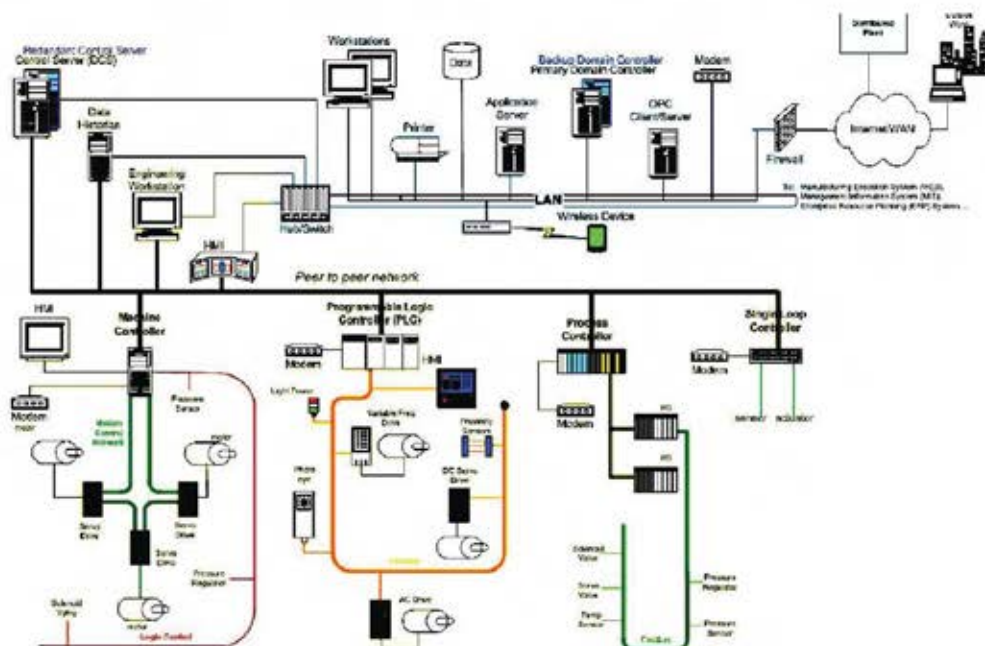

MES/ERP Integration

With our in-depth understanding of industry processes and our competitive technical capabilities, we adopt a dedicated methodology to deliver leading-edge process automation and information solutions tailored to the particular requirements of your processes.

PROCESS CONTROL & AUTOMATION

We provide our customers with an efficient way to control industrial processes locally or remotely; monitor, gather, and process real-time data; directly interact with devices such as sensors, valves, pumps, and motors, through human-machine interface (HMI) software.

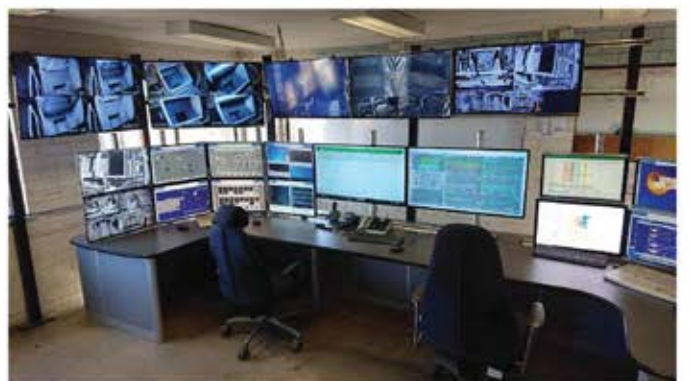

Control Room Monitoring

Am-Pro's latest innovation in control room monitoring automation marks a significant leap forward in operational efficiency. Through seamless integration of AI and IoT technologies, our solution empowers organizations with real-time data analysis capabilities, enabling proactive problem-solving to minimize disruptions and errors. With Am-Pro's automation in place, businesses can rest assured knowing that their operations are monitored with precision and accuracy.

By harnessing the power of automation, Am-Pro's solution liberates human operators from routine monitoring tasks, allowing them to focus on strategic activities that drive business growth. This not only optimizes operational efficiency but also enhances the overall effectiveness of control room operations. With streamlined processes and enhanced decision-making capabilities, organizations can achieve greater agility and responsiveness in today's dynamic business environment.

Experience the future of control room monitoring with Am-Pro's cutting-edge automation. Our solution ensures smoother operations, reduced downtime, and improved performance, empowering businesses to stay ahead of the curve and succeed in an ever-evolving landscape.
