For his own purposes, Osei Agyeman Prempeh II subscribed to these ideas. In 1946, he explained his views to his drafting committee in comments on chapter 1:

This last work about migrations of ancient Ashantis to the Gold Coast is a finish to the work so long delayed. I thank you. It is a fitting thing to go back to earliest times. It shows what has always been my opinion that Ashanti is Ancient and Venerable back from when history is remebered [sic]. I know it truly to be the fact that in the ancient past Ashanti people lived by Jerusalem and removed little by little to live again in Egypt then to here. When I talked to you of it it was said that it was the fact that it was our Noble Families of Ashanti who have travelled from far but the rest of the people were natives from here such as Dankyira, Akim, Tekyiman etc. This could be for Nobility even up to the present day are a light colour (like red) even when most Ashantis are dark black (African-type). Notwithstanding I am of the firm opinion that nothing good can come in these times by saying some are better than others because they are descended from those who long since came here from the east. It may be a historical fact known to the precious few but I am sure it is the right thing at the present time to keep it quite hidden from view.

### **Osei Tutu Agyeman Prempeh II**
