

WHY YOU SHOULD BUY MY SHELVING SYSTEMS

www.ciumcurrentng.com

08162172215

A lot of prospective supermarket/ hypermarket owners have no idea what our gondola shelving units can do for them. Relax and kindly read the reasons as stated below:

- Optimum flexibility with vertical use of space
- Cost Effective
- I take pride in my shelves because they are triple coated with zinc and phosphate oxide to prevent corrosion.
- Our shelves have a powder coated glossy finishing to make your products shine on white light there by enabling product visibility and outstanding sparkle.
- Durability when compared to alternatives as the racks are so strong it can carry up to a load bearing capacity of 100 kg per level while our wine shelves can carry 200kg per level. So collapsing is not a fear to entertain unlike some other shelves out there that are cheap and of low quality fabrication

- Maximizes space utilization
- The product will become more noticeable as rack look neat and stylish thus bringing out the color and beauty of your displayed products.
- We have track record as we have worked for many big brands in the past like Addide, Ebeano, Babcock University, Savannah mart, Enyo filling station, Sidi and Sons etc.
- We are certified by Cotecna, ISO and Standard Organisation of Nigeria (SON). Therefore we are confident about our supplies and offer 1 year warranty on our products.

With these few points of mine, I hope I have been able to convince you that our shelving offer is your best choice and value for your money in this year 2021.

A wise man once said, “If you want to do a good thing, do it well and do it right”.

We are here for you.

Please give us your shop fittings worries today as we will not let you down. Call **08162172215**
