INTRODUCTION

- CCNL is a one-stop store fixture, shop fitting and space management centre.
- We are professionals who deal with the fabrication and sales of supermarket shelves, pallet racks, mannequins and space fitting accessories.
- Our products are of high quality which are ISO and SON certified.
- We have a history of successfully solving retail store merchandising needs.
- When it comes to space management, we are passionate about offering prospective customers the best solution for their available space.
- These shelves and racks will be useful in making your outlet look standard and professional.
- Effective space management results in the reduction of damages, man power requirement and operating costs.
- We are here to offer you dynamic and evolutionary interior design and finishing.
- We also offer services such as inventory, sales and retail consultations with our vast array of experience and we are confident that this will benefit your firm.
- Kindly give us your space management & shop-fitting needs today.

OUR VISION AND MISSION

VISION

- To be the number one brand name in the area of space management, pattern, concept and visual display creation across West Africa.

MISSION

- To help our customers get the best out of the spaces available to them by introducing our evolutionary space management fittings and services.

THE CONCEPT OF VISUAL MERCHANDISING

We live in a world of vision. Your business needs more visual contents. Contents with excellent visuals get 94% increase in patronage. Our human brain loves to associate with excellent visual contents, that is why we love holidays in beautiful cities. Buying decisions are made better and faster if the environment is serene and highly visual. This breeds [the concept of visual merchandizing](#).

- **The first impression of your store is your presentation & windows display.** Your first impression is your last chance.
- Visual merchandising augments the retail design of a store. It is one of the final stages in setting out a store in a way customers find attractive and appealing.
- It is the use and manipulation of attractive sales displays and retail floor plans to engage customers and boost sales activity. In visual merchandising, the products being sold are typically displayed in such a way as to attract consumers from the intended market by drawing attention to the product's best features and benefits.

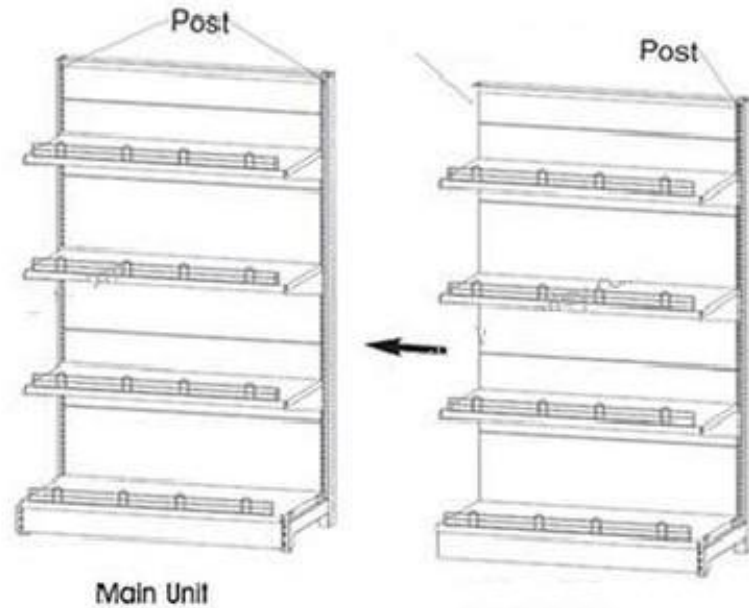

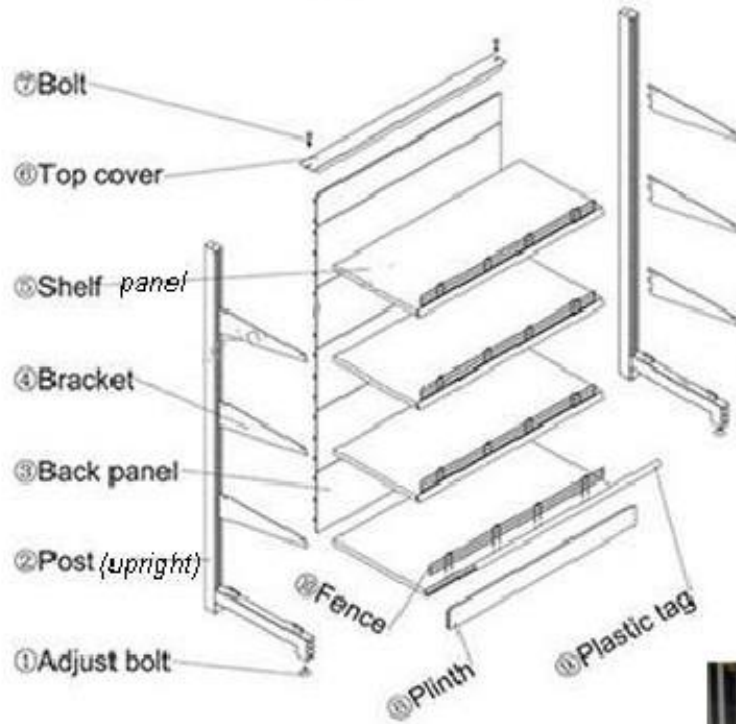

- Visual merchandisers develop, deliver and communicate visual concepts and strategies to promote retail brands, products and services in-store, in catalogues or online.
- Many elements can be used by visual merchandisers in creating displays including color, lighting, space, product information, sensory inputs (such as smell, touch, and sound), as well as technologies such as digital displays and interactive installations.
- A floor map helps visual merchandisers to find the best place for garments, color stories of clothes and footwear in the shop.
- Restaurants, grocery stores, convenience stores should utilise accurate visual display of their products.

Will Shop fixture items sell my goods? Yes it definitely will. The problem is finding the right ones that effectively fit your shop and that will stand the test of time.

- The whole world, as we experience it visually, comes to us through mystic realm of color (Hans Hofmann).
- The most effective windows display are designed with a strong emphasis on color.
- There is no doubt that the use of color can attract attention and is the most effective way to send a positive message to a future customer by creating an effective backdrop for windows display.
- A visual merchandiser should never be discreet when applying color to a window display-using subtle color will go unnoticed by the passer-by.
- Our visual merchandising managers will use colours and beautiful product combination to prepare your shop for a great consumer experience.
- CCNL draws on her experience to evaluate, consult, and share creative ways to make your sales floors and back ends more productive. This interaction is what makes CCNL stand out above all others as the innovative leader in the space management & store fixture industry.
- We are very passionate about exceeding the expectation of our potential customers in design, layout and quality.
- We have a history of successfully helping retailers solve merchandising challenges.

HOW TO SET UP A SUPERMARKET SHELVING

EAS ALARM SYSTEM TO DETER SHOPLIFTING

ELECTRIC GENERATING INVERTER INSTALLATION

Dear retail shop owner, studies have shown that about 5% of your customers are potential shoplifters.

You need to keep an eye on your investment. Do not underestimate the power of technology.

Get a couple of these.

THE CONCEPT OF EAS ALARM SYSTEM

The gate on one side of the doorway contains a radio transmitter. This constantly beams out radio waves to the gate on the opposite side of the doorway, which contains a radio receiver.

A shoplifter walks through the doorway carrying a stolen item (milk, cloth, wine, book, perfume etc.)

The product contains a hidden RF tag stuck to a label inside, which picks up the radio waves.

Once activated, the RF tag transmits a radio wave of its own at a very precise frequency.

The receiver gate picks up the radio waves and identifies their frequency.

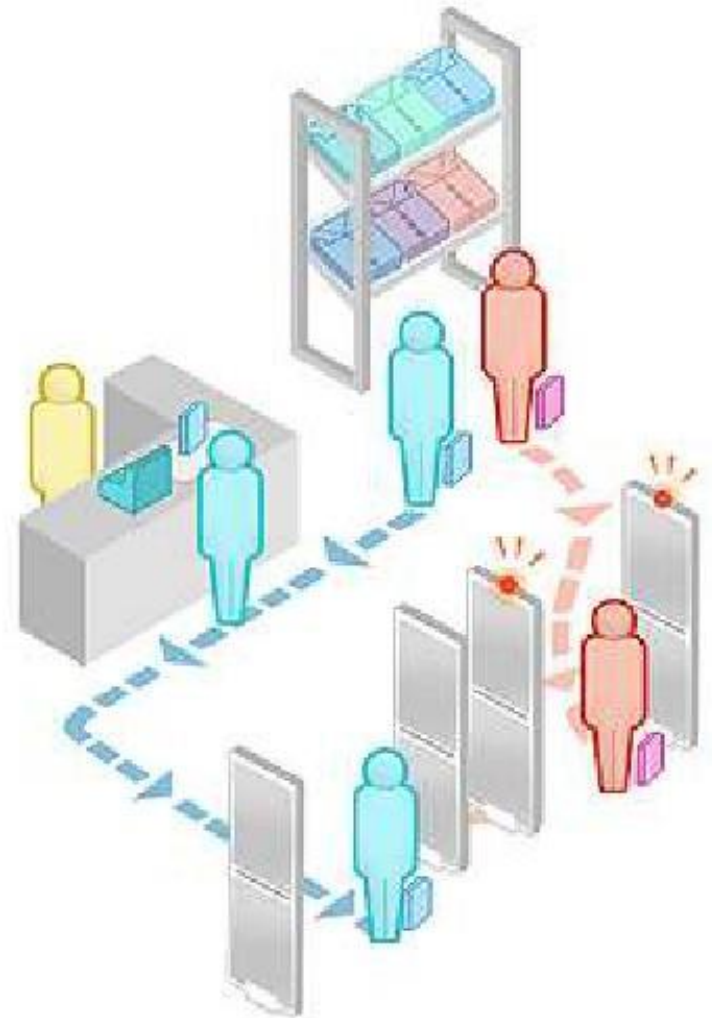

If the frequency is correct, the gate figures out that a stolen item is moving through and sounds the alarm.

Application:

Anti shoplifters EAS solution can be used in:

Hypermarket, Supermarket, Fashion & Textile, Specialist Retailer Video shop, Jewelry shops, Book store, Library, Pharmacies(drugstore), Clothing store, Cosmetics shop, Liquor stores, Perfume shops etc.

Alarm beeps if customer fails to deactivate products at till point.

HEAVY DUTY SPEEDLOCK PALLET RACK

Pay less, get more from CENL racking

08162172215

HEAVY DUTY DRIVE-IN PALLET RACK

There are different kinds of Pallet racking system to choose from:

- Speed Lock Selective Pallet Racking
- Double-Deep Pallet Racking
- VNA (Very Narrow Aisle) Racking system
- Radio Shuttle
- Cantilever
- Drive-in Pallet Racking
- Push Back Pallet Racking
- Structural Steel Pallet Rack
- Tubular Upright Pallet racking: exclusive closed tubular column which has 200 times more resistance to torsional forces than comparable open channel columns found in ordinary pallet rack. This tubular column also has much greater resistance to fork truck impact.

They are all powder coated with steel grade Q235B. Our Installation is in line with SEMA (Storage Equipment Manufacturers Association) guide lines.

Expertly assembled and securely fixed

Laser guidance ensures the rack is always installed straight and levelled

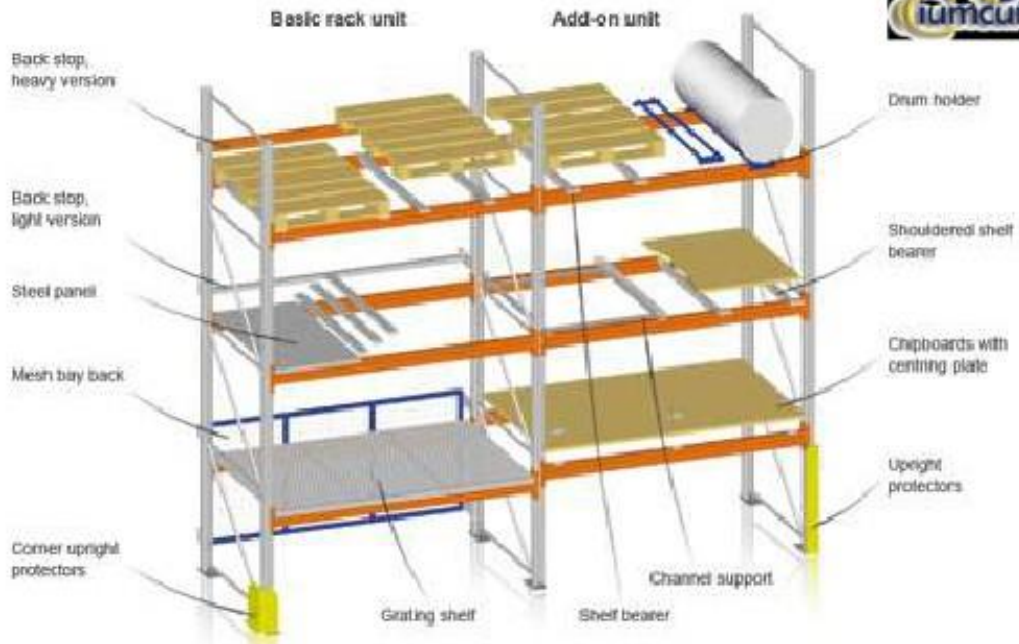

Our racks are designed to meet the demanding needs of the warehouse industry

We fully meet all necessary safety standards and sema codes of practice of fitting warehouse racks

Their dimension is LxDxH 2700*900*≤5600mm with variable height
Speedlock Pallet Racking is the simplest of all storage systems providing direct access to all pallets, and is the most economical in terms of equipment and capital costs
Speed lock beams provides a comprehensive range of strengths to cater for any load up to 10,000lbs (4500kg) per pair of beam

Strength and Greater Impact Resistance – Any engineer will confirm the fact that a closed tube column is stronger than an open box channel. A closed column also increases torsional resistance more than 200 times over any relative open shape. When purchasing your rack system, think safety, think product damage, think liability and think peace of mind

THIS IS DISASTER BAD WAREHOUSING WITH WEAK LOAD CAPACITY RACK

WE ASK A FEW QUESTIONS BEFORE WE DETERMINE WHAT RACKS WILL BE SUITABLE FOR YOU
WE IMPLORE YOU TO ASK FOR DETAILS. DO NOT PRACTICE PENNY WISE POUND FOOLISH
PLEASE DO NOT GIVE YOUR WORK TO QUACKS

Benefits of owning a Garment Steamer over a steaming Iron

- Steam to perfection
- No need for an ironing board
- Steamers can safely iron delicate garments
- Steaming is good for hygiene
- Multi-Purpose: Steamers are multi-purpose tools, allowing you to steam all kinds of fabrics. That means that you can freshen many items in your home, and not just clothes.
- No More Dry Cleaning: With a garment steamer, you no longer need to pay for dry cleaning, because you can do all that work for yourself. This saves a lot of money in the long-run.
- Easy to Use: It's incredibly easy to use a garment steamer. All you need to do is add tap water into the reservoir and you're ready to start steaming with the touch of a button.
- Economical and Effective: Steamers are mostly economical in price, and they truly work. Not only will you save time by using a garment steamer, but you're also going to be saving yourself money.

WHAT DO I NEED A MANNEQUIN FOR?

FASHION MANNEQUINES

Fashion Mannequines are terribly interesting. They are sometimes called dummies, images, models, statues etc. Should you require a mannequin for your fashion department or shop kindly try out our tripled fibre-glass and eco-friendly plastic mannequines available as kids, teenagers, adult male & female, realistic and abstract design models.

The first impression of your store is your presentation & windows display. Our products can do that for you. **Why not make your shop work very hard for you!!!**

Kindly call us for a **mind blowing visual merchandising** of your new/ already existing fashion outlet.

FEMALE ADJUSTABLE DRESS FORM C

FEMALE ADJUSTABLE DRESS FORM B

Adjustable Dress Form A

- The Adjustable Dress Form is a specialty form that is unique to the fashion industry. With its ability to easily transform itself from one size to another with a single hand, it already has become a staple that every seamstress or fashion student should have.
- A versatile and unique product, this fitting mannequin changes sizes by twisting the top knob. The benefit is getting an accurate fit for different sizes without needing to purchase 5 or 10 separate forms. At the twist of the knob, a meter inside the neck display rises and falls to show you what size the mannequin is.
- In order to maintain the proportions of various sizes, the Adjustable Dress Form is manufactured in four parts, and is covered with elastic fabric to ease in expansion.
- Fully supported by a strong metal base, the Adjustable Dress Form also features on its neck, a gauge which displays the measurement as he/she expands or retracts the form
- In addition, the female adjustable forms are unique in that the waist and hips are adjusted by the turn of a knob above the neck gauge; the bust measurements adjust both in height and circumference with individual levers.
- Foam-Backed Fabric Exterior allows you to easily pin dresses,skirts,tops and patterns

ADJUSTABLE DRESS FORMS B & C

- Fully adjustable dress form for use in sewing projects or as a display piece
- 12 Adjustment Dial (Bust, Waist, Hips) provide a perfect fit
- Hem Guide allows for perfect hems on skirts and dresses
- Foam-Backed Fabric Exterior allows you to easily pin dresses, skirts, tops and patterns
- Height Adjustment lets you customize the dress form to your height in a snap

ECO-FRIENDLY MANNEQUINES

We stock the plastic mannequin made of PP, PE, ABS, PC ETC. created from eco-friendly materials which are completely re-cyclable, providing an extra eco-pleasant option for customers.

PLUS SIZE MANNEQUINES, A MUST HAVE FOR AFRICAN FASHION STORES

Why is this important? Because we need to change the way most super skinny mannequins look! Walk in to any fashion store around the world and you will see mannequins with a tiny waist and flat stomach. That is not how normal people look! The fashion industry is not a health institution. Fashion shop owners should think differently when they are about to purchase new mannequins. Simply put, let us try to change the world of fashion, one small image at a time!

Give your plus size customers a chance to see themselves through the eyes of your stylishly dressed plus size mannequines.

The glossy and chrome mannequins are for high-end stores that want to show a difference. It is unique, visually appealing & moves the garments fast.

IN CONCLUSION

- When it comes to retail merchandising, there is a problem. The problem is **effectively displaying merchandise**. That is why we are here for you.
- Making the most of the sales floor is one of the most difficult challenges met by convenience store retailers today. With smaller floor plans every square inch of space is more important. We offer products that help you utilize every centimeter of your sales floor.
- All our products are approved by:   
- A word of advice is that “good lightening has positive impact on the behaviour of Shoppers”.
- Our shelves and fittings offer a clean and organized approach to displaying all kinds of merchandise.
- Maximizes Flexibility
- **Wondering how to make merchandise stand out?**
- Cium's Solutions
- CCNL offers a variety of specialty shelves and accessories to improve your bottom line
- CCNL understands shops and space management. We are a leading innovator in the store fixture industry, CCNL maintains the most dominant market share in the Nigerian market and supermarket segment, and has a history of successfully helping grocers solve their merchandising challenges.

OUR SERVICES

- POINT OF SALES (POS) & CASH REGISTER INSTALLATION
- SECURITY & CCTV INSTALLATION
- POWER GENERATION AND INVERTER INSTALLATION
- INTERIOR DECORATION & UPLIFTMENT
- CLEANING & FUMIGATION SERVICES AGAINST PEST LIKE RODENTS, ROACHES ETC.
- VISUAL MERCHANDIZING, WINDOWS DISPLAY & TRAINING
- AUDIT, INVENTORY CONTROL & GENERAL MANAGEMENT
- METAL WORK & ALUMINIUM CLADDING SERVICES
- SHOP DESIGN AND RENOVATION (PLUMBING, CARPENTARY, ELECTRICAL AND BRICKLAYING SERVICES).

NOTE

There's only one fixture company bringing innovation and new ideas to the market, and that is CCNL.

We are here for you. It all depends on what you will do now.

Call us today for a thought provoking discussion with one of our sales representatives.

Would'nt you rather shop with us?

U always leave hapi!
