

Thank you for your interest in our Directory of Fresh Pet Food Professionals. It's our goal to provide as many qualified resources as possible for the vast number of people seeking nutritionally adequate recipes to feed to their pets. For this reason, our baseline criteria involves the ability for professionals to formulate recipes that adhere to established nutritional guidelines (AAFCO, NRC or FEDIAF) and beyond meeting minimum established nutritional requirements.

We plan to include a summary paragraph and a photo or image in the profiles on the site. Please feel free to submit those to us when you return this form by email.

General Food Philosophy / Feeding Approach:

What we feed our pets directly affects their wellbeing and health. Food is medicine! I focus on whole foods nutrition, whether it is through a fully balanced home cooked diet or helping clients integrate food based therapies and herbs into their pet's current diet to maximize their health at any life-stage. I also help formulate diets for disease management, so that clients have additional options outside of prescription diets.

Areas of Focus:

I focus on species appropriate diets for all life stages as well as for disease prevention and management. I can help clients find a diet that can help with the control of the following diseases: Heart, Kidney, Liver, Endocrine, GI, Immune, Dental, Allergies, Food Intolerances, Leaky Gut, Dysbiosis as well as natural prevention and elimination of parasites.

Experience / Education / Credentials / Apprenticeship/ Training:

Membership in Professional Organizations:

When creating diets, what Nutritional Standards do you formulate to (check all that apply):

- AAFCO 2020
- NRC 2006
- FEDIAF 2020
- Other (Please specify: _____)

What methods, tools, and / of software(s) do you use for formulating:

I use Pet Diet Designer when formulating a pet's diet. I also utilize blood, urine, fecal, xrays, ultrasounds and outside testing done through Jean Dobbs, Standford, etc as well as veterinary diagnosis of a disease condition. Each animal is unique and diagnostics are instrumental in making sure the right diet is formulated and sustained over time. I have also worked with Glacier Peak, NutriScan, HairIQ, Spectrum, and look forward to utilizing animalbiome.com.
