

Thank you for your interest in our Directory of Fresh Pet Food Professionals. It's our goal to provide as many qualified resources as possible for the vast number of people seeking nutritionally adequate recipes to feed to their pets. For this reason, our baseline criteria involves the ability for professionals to formulate recipes that adhere to established nutritional guidelines (AAFCO, NRC or FEDIAF) and beyond meeting minimum established nutritional requirements.

We plan to include a summary paragraph and a photo or image in the profiles on the site. Please feel free to submit those to us when you return this form by email.

General Food Philosophy / Feeding Approach:

I value individualized nutrition utilizing an ancestral, science-based approach. No two consults are the same. Formulations promote the use of whole foods as a foundation and only supplement when needed. Consults are every bit about the dog as they are about the owner- formulations are unique to the dog and only utilize ingredients that the owner can afford, access, and is comfortable working with. Cooked, raw, pre-made, or commercial food enhancements can be utilized.

Areas of Focus:

A complete list of conditions can be found on my website. Conditions I work with the most outside of healthy adults and puppies include MCT, pancreatitis, food intolerances, chronic kidney disease, and working canine diets.

Experience / Education / Credentials / Apprenticeship/ Training:

I have obtained my certificate of Advanced Canine Nutrition at the Companion Animal Sciences Institute, my diploma of Canine Studies from Oxford Learning College, Anatomy & Physiology from Canine Principles. I have been familiar with fresh food diets for dogs since childhood, but have been actively working with clients since 2017.

Continuing Education:

Currently enrolled as a 3rd year pre-vet student, on pause due to the Corona virus pandemic. Online courses continue: Cert. CF Canine Fitness from The Companion Animal Sciences Institute and Foundations in Herbal Medicine with Dr. Low Dog

Membership in Professional Organizations:

Student membership at the Raw Feeding Veterinarian Society.

When creating diets, what Nutritional Standards do you formulate to (check all that apply):

- AAFCO 2020
- NRC 2006
