

Relentless
SCRATCH-RESISTANT SPC

Diamond Gard™

Next Generation Coating System

Diamond Gard™ is a proprietary acrylic-based coating that solves the main problem with typical vinyl products: scuffs and scratches.

All Power Dekor vinyl products are coated with Diamond Gard™ as standard, however there are some products that have multiple coats for added protection.

Relentless Collection

Relentless is coated 7 layers of Diamond Gard™, so there is no need for a wear layer.

This means clearer and crisper visuals, because there is no hazy wear layer between you and the HD printed graphics layer.

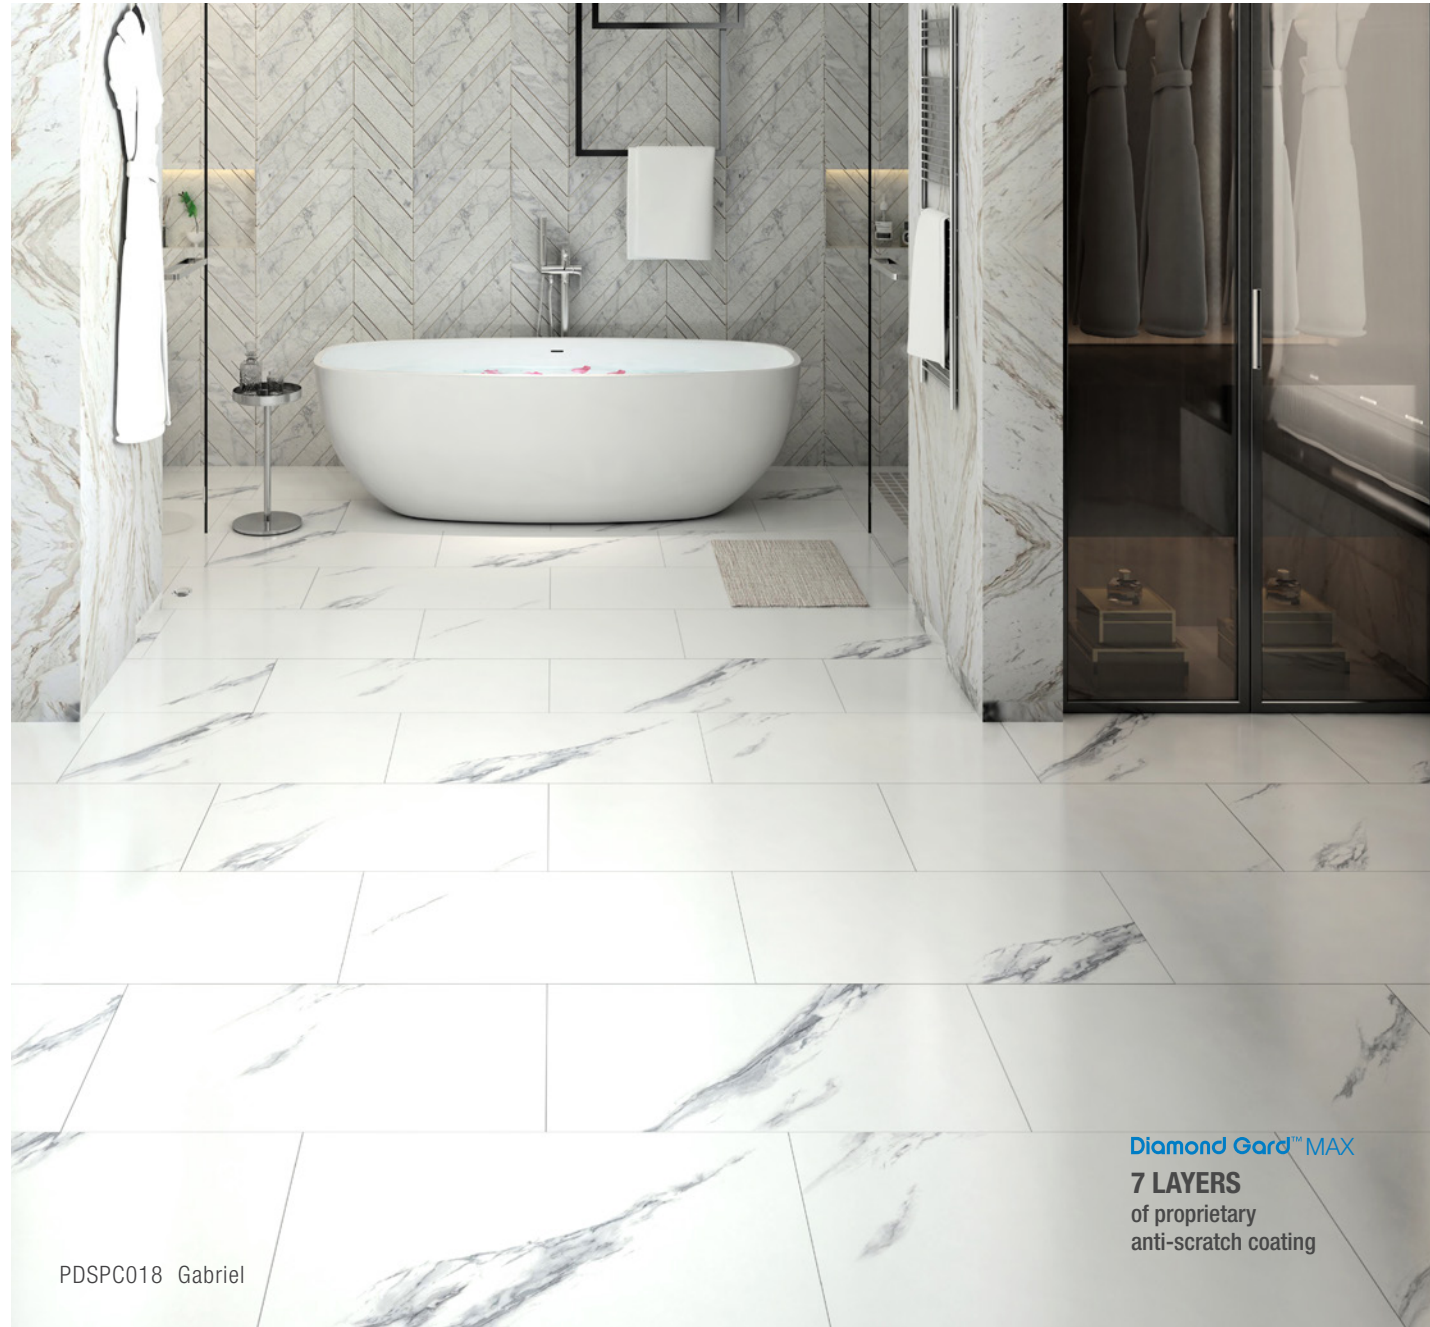

Diamond Gard™ MAX
7 LAYERS
of proprietary
anti-scratch coating

- High-Res Printing
- SPC Core
- Drop Lock & Fold Down Locking Systems
- 1mm Attached Pad
