ABOUT COMPANY

Right Angle was established in January 2019, and since then, we have been offering our engineering services in the majority of the most prestigious developer's compounds and residential communities and Industrial companies.

We have a team of highly skilled engineers that previously worked for reputable multinational corporations both inside and outside of Egypt. Our clients have put their trust in us since we are familiar with the high international codes and standards of architectural and civil engineering as well as our awareness of the gaps in the Egyptian market while having the ability to fulfill it.

OUR VISION

Innovative builders who influence the market with distinctive designs in a luxurious opulent stamp and exquisite touch on all our projects.

OUR MISSION

Building stunning, flawless and guaranteed homes, offices and buildings with high international standards that leave our clients satisfied and fulfilled.

MEET THE FOUNDER

Ahmed Oriby

Founder & Managing Director

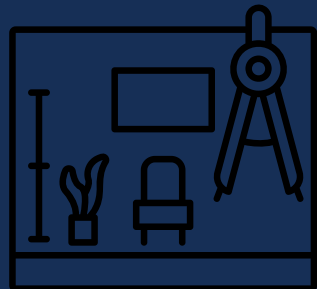

Ahmed Oriby is the Founder and Managing Director. Ahmed holds a bachelor degree in civil engineering, and for almost 17 years of experience in projects management, he has been working in the fields of structural, architectural, industrial & interior designing, usually all at once.

In the 1st of January 2019, he established Right Angle as an Interior designing, architectural and construction firm, later expanded to project management, industrial projects and, engineering services and contracting.

According to Ahmed, the essence of his business is to close the gap between the high international standards in both architectural and structural dimensions that have not yet been fully reached and fulfilled in the Egyptian market.

OUR SERVICES

INTERIOR DESIGN

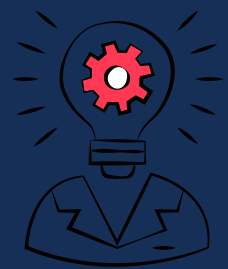

We always believe that that the right design is not only an attractive one but also a one which can be implemented in terms of detailing and materials availability, paying a good care to the budget and getting the best out of it.

CONSTRUCTION

The good designer should be followed by a good applicator. With a huge experience in implementing all types of projects, whether architectural, structural or industrial projects, our engineers with a long past experience in reputable multinational companies are able to do this easily.

OUR SERVICES

PROJECT MANAGEMENT

Since the fluctuation of the global market situation requires companies to reduce the functional and overhead costs, it was necessary to work to meet the companies' requirements on the projects management side to reduce this burden of management's costs in a win-win situation.

INDUSTRIAL SERVICES

With full experience in the industrial fields from concept to completion. Structural, Mechanical, Electrical, Electro-mechanical & Automation. We design and implement all kind of industrial projects and logistics projects to offer a complete package to serve industrial needs.
