Matching Cards -

Holes used for matching cards were taken in order of difficulty, according to stroke index, i.e. hole # 6, #10, #5, #13, #2, etc.

For example, if one or both players did not use hole 6, then hole #10 was used, and so on until a common hole was found. Then on the first common hole used, if one player scored a net 5 and the other player scored a net 4 then the net 4 won.
