

DOUBLE DOLLY

HAND CART SYSTEM

What makes the Double Dolly™ Hand Truck unique?

- The convenience of a forklift and a dolly all in one.
- Effortlessly lift & move large, heavy, items.
- Single-handed operation.
- Easy to assemble & store.
- Simple, compact, design allows easy storage.

Our product offers the functionality of traditional commercial moving services and devices at a fraction of the cost. Our simple design returns the power to the consumer by allowing users to easily move items one-handed. The Double Dolly Hand Cart System is designed to be conveniently stored in a non-obtrusive and compact form when not in use.
