

Canned Goods Department

Rules and Regulations

1. Entries must be in home canning jars and sealed with two-piece vacuum caps (exception: dried products). Products in mayonnaise jars, etc. will not be judged.
2. All entries except dried products must be heat processed using boiling water or steam pressure method.
3. Entries must have been prepared within one year prior to the judging date.
4. An appropriate amount of headspace must be allowed. Products should be uniform in size and packed snugly, but allow for circulation of liquids. Liquids should be free from cloudiness. Addition of food coloring will make entries ineligible for judging.
5. Products should be free from defects or blemishes, stems, pits, and floating peels.
6. Air bubbles should be minimal. Gas bubbles denote spoilage and are identified by movement to the surface of the product while it is stationary. Any entry exhibiting spoilage will be disqualified. Paraffin is not an acceptable method to seal jams and jellies.
7. It may be necessary to open home canned food entries for judging purposes. Entries that are not vacuum sealed will not be judged.
8. Entries must be labeled with product name, date of preparation, processing method, and length of processing time.
