& Nyangumarta*

*Northern Territory  
Indigenous Business Member*

*Traditional Owner  
Perth Metro Based  
Wadjuk Noongar Boodja*

*Marlu means kangaroo in Walpiri language. Our traditional owner's bush name from the elders was "Big Red Kangaroo", it is for these reasons we use the Big Red Kangaroo to represent our businesses.*

# About Marlu

We're an Indigenous company who offer comprehensive engineering services, from design and bespoke manufacturing to installation and continuous support.

Our reputation is founded on delivering top-notch work with professionalism and efficiency. We aim to be the first choice, first nations business for our customers' onsite or offsite maintenance needs across the country. Our core objective is to ensure their operations remain reliable by the quality and expertise delivered by our people.

If you are seeking a dynamic contracting partner or believe you have the skills to join our professional team, contact us today.

## Vision & Values

Our vision and values act as a compass at the core of our culture. They are the documented standards and principles that govern how we complete our work.

Integrity doing what is right and doing what we say we will do.

Excellence being the best at what we do, and the best version of ourselves.

Courage to have the mental or moral strength to venture, persevere and withstand challenges, or difficulty.

Safety & Wellbeing we show concern and actively care for others. We always stop, think first and act safely.

# Marlu Resources Group

## Quality

At Marlu our focus on quality is what sets us apart from our competitors. Our people are our biggest investment and we ensure that this investment is in the right place to ensure when onsite, our capability provides customers with peace of mind and ensures production is at its highest.

## Environment

As a proud Aboriginal owned company, we want to raise the bar and ensure our operations leave a positive legacy for generations to come. We know our leadership in this area is highly valued by our employees, customers, and communities, and is critical to our long-term success. Our commitment and action towards sustainable solutions will allow us to respond effectively to the risks of climate change and adapt to a low-carbon future. While our overall carbon footprint is deemed small, we continue to look for ways to reduce our emissions.

## Sustainability

Sustainability is our strategic approach to managing our business operations with the world's future in mind. Our focus is on integrating sustainability across all our business operations. Our aim is to drive partnership value through the integration of social, community, health and safety, environment, governance, diversity and inclusion into our operations.

## Health & Safety

Designed to empower every person in the company to ensure their work practices are focused on achieving zero harm outcomes. Our commitment to Striving for Excellence means we are always seeking opportunities to innovate and learn from our experience. We will continue to drive our safety culture, systems, planning and risk management to deliver improved health and safety outcomes for our people, clients and contracting partners.

# Mining Maintenance

We prioritise safety, extending asset life and delivering certainty for our customers.

Marlu has in depth knowledge of delivering exceptional heavy equipment maintenance solutions to our customers.

Our people are experts in maintaining some of the world's largest earthmoving equipment from diggers, trucks, graders and loaders to water carts and drills. Our ability to provide solutions for back fill, leave replacement, planned maintenance & shutdowns, adhoc requirements and breakdowns will ensure your operations are running around the clock.

## Rostered Maintenance

To ensure seamless continuity of operations, prevent costly disruptions, and maintain productivity, Marlu will provide one of our highly skilled employees with the right qualifications and skill set to fill the gap you have, for the length of time you need. Marlu's highly skilled tradespeople have the depth of knowledge required and 'safety first' mindset to meet all your needs. We are able to support you with the appropriate tradespeople.
