

It's that time of year again to sign up for aeration and fertilization. But, first I have big news to share!

Recently, I decided to expand Kenton Landscapes and Irrigation (KLI) and have joined forces with Heroes Lawn Care. Heroes is a business based out of Nebraska which has over 30 locations throughout the nation. I have joined the Heroes team as Operations Manager to help build our first location in Colorado.

The Colorado branch is family owned & operated with the goal of providing our community with a trustworthy lawn care company. We are proud to offer a "one call" approach with our core services focused on creating and maintaining healthy year-round lawns. We use top-of-the-line technology & equipment, with dependable, professional crews to diagnose your exact needs. Our many services can be packaged to fit your needs, saving you money by having one company cover multiple areas of care.

What does this mean for YOU as a customer of KLI? Due to the larger staff we are building, we are now able to offer many more services that KLI did not have the manpower or the time to deliver previously.
