

Club View Park – New Basketball Goal Installation – October 2020

We now have new basketball goals in Club View Park. The old goals were very old, the backboards were no longer parallel to the court end-line, and the rims were damaged.

The new goals are the Hercules Diamond model from ProDunk Hoops, with regulation sized, acrylic backboards, break-away rims, and padding on the vertical posts. In the future we will seal the asphalt court, and re-paint the court lines.

Here are some photos showing the transition to the new goals.
