

Frequently Asked Questions:

Q. What are the minimum requirements to take the class?

A. IF THE PARTICIPANT IS LESS THEN 18 YEARS OLD THEY MUST BE ACCOMPANIED BY AN ADULT WHO WILL "OWN" THE PROJECT AND BUILD ALONG SIDE.

- i) YOU MUST BE ABLE TO COMPLETE A FORM 4473 (TRANSFER OF FIREARM) TO TAKE THE CLASS!! ALL CLASS PARTICIPANTS WILL BE REQUIRED TO REGISTER AT LEAST A WEEK IN ADVANCE AND PAY IN FULL FOR THE CLASS WHEN THEY BOOK IT TO HOLD A SPOT. IF WE DO NOT HAVE AT LEAST 3 PEOPLE FOR THE CLASS IT WILL BE RESCHEDULED FOR THE FOLLOWING WEEK!

Q. What do I need to bring?

A. YOU MUST BRING YOUR VALID STATE ID, GOGGLES/GLASSES, HEARING PROTECTION and 50 ROUNDS OF .223/5.56 AMMUNITION.

Q. What is the refund policy?

A. NO REFUNDS WILL BE GIVEN (UNLESS MEDICAL ISSUES ARISE OR THE CLASS IS RESCHEDULED BY INSTRUCTOR WITH NOTICE OF NO LESS THAN 2 DAYS) SO PLEASE MAKE SURE YOU HAVE SCHEDULED ACCORDINGLY! IN THE EVENT OF A RESCHEDULE OF THE CLASS, YOU WILL BE GIVEN AN OPPORTUNITY TO ACCEPT THE TIME SET FOR THAT RESCHEDULED DATE) FOR CUSTOM CONFIGURATION CHANGE QUESTIONS CALL: (913) 274-5383 and ask for Art

Q. What accessories are included with the kit?

A. No tools are required to take this class; everything needed to build YOUR AR Rifle will be provided! The only prerequisite for this class is a basic knowledge of firearms and firearm safety. You will be leaving the class with the basic tool set, cleaning/build mat, Cleaning kit, hard case and your rifle w/magazine. (see below for items included in the rifle build kit components)These are included in the cost of the class.█

Q. Exactly what am I building?

A. You will be building an AR style sporting rifle in either .223/5.56 or .308 calibers. (.308 or other caliber's are determined at least 2 weeks prior to the class start date to allow for order/fulfillment and any consult needed to facilitate the build).

These rifles will be assembled (by you and guided by the course instructor) from new parts, using US-made Mill-Spec receivers (flat top upper and billet lower), US-made 16" barrels (choice of CMV Black Steel or Stainless steel), US-made bolt carrier groups, Mil-spec fire control group parts (polished and fitted for clean trigger break of 4-5 Lbs.) mil-spec charging handle, 15" US-Made Free Float Handguards (Key Mod), Low Profile Gas Blocks and gas tubes, titanium hammer & trigger pins with stainless locking screws, raised takedown and pivot pins, Recoil reducing blast compensator, Mil-spec buffer kit, Magpul MOE base stock and pistol grip, BUIS (backup sights) and one (1) Magpul 30-Round magazine.

This is considered a standard AR rifle build and is our house, base configuration. Only bolt-on accessories for customization can be fitted during the build, and any accessorizing requiring extra machining or guidance beyond class curriculum cannot be achieved during the limited time frame.

Q. Anything else I need to know?

A. This is not a leisurely-paced class, but each step in the process will be explained and supervised. By the end of day, you will have a fully assembled AR-15 or AR-10 rifle. AR-10 platforms will have to be discussed before class as they have no mil-spec standard and come loosely in 2 iterations – DPMS and Armalite and built by YOU!

You will complete the Federal 4473 at the beginning of the class and leave with rifle in hand. We are a properly licensed Type 07 Manufacturing FFL holding SOT stamp FFL. These will be 100% legal by all Federal and state laws, serialized firearms when finished.
