Peeps Catapult

Supplies Needed: 7 Craft Sticks, 2 Plastic Spoons, 2 Peeps, Small Rubber Bands

Directions:

- o Stack 5 craft sticks on top of each other and secure both ends with a rubber band. (We used some of the colorful loom bands) This will be your crossbar.
 - o Next, stack 2 craft sticks on top of each other and secure one end with a rubber band.
 - o Carefully open up the 2 craft sticks and slide your stack of 5 in between them.
 - o Then lay a plastic spoon on top of the top craft stick and secure both ends of the spoon to the craft stick.
 - o Finally, criss-cross one more rubber band around the area where the craft sticks intersect, holding it all in place
- To launch your homemade catapult, simply hold one side of the crossbar while using one finger to push the spoon down and then — let go - with your Peep laying on the spoon!
