The new Chulligan Rule:

A new rule proposed last year can be approved by the foresome before teeing off:

- If a player wants to take a mulligan at any time, they must down a 16oz beer or drink two full one-ounce shots (of alcohol) BEFORE taking the mulligan. There is no limit to the number of times this rule may be used.

Drinking Rules can be proposed and or deleted by a minimum vote of 51% of the members. Drinking during deliberation is highly recommended.

We must reiterate again that we are Sheamless but not Classless. Do not be crass and rude around other members or staff of the club.
