ONLINE
SERVICES
AVAILABLE

Our Programs

Special Education Program (3-15years)

The Special Education Program focuses on building skills required for independent living - cognitive, social, home and life skills are simultaneously worked upon.

Our services are available online and as parent led home programs for children between 3-15 years

A personalized curriculum is made for each child. Parents are an integral part of the program. Guidance on teaching methods and techniques are shared along with activities for the child.

Young Learners Program (2-6 years)

Play Way Interactive Teaching for Young Children covering a range of subjects such as language, math, environmental science, art and craft, physical activities, stories and rhymes.

Our services are available online and as parent led home programs for children between 2-6 years

Guidance on Teaching Methods, Personalized Curriculum based on the child's interest, abilities and needs along with the opportunity to use material at home to help your child learn at his/her own pace.

Reading Program

Individual Classes to build Reading, Comprehension, Vocabulary, Spoken Language, Spelling and Writing in English are simultaneously with an experienced Special Educator.

Our services are available Online.

Children are screened and assessed based on the needs of the child a reading program is suggested.

For a child

"L-O-V-E" is "T-I-M-E"

Parent and Child Counseling

Confused about your child's learning abilities, tantrums, addition to screen time?
We are here to hear you out!

Our services are available Online.

Emotional well-being is important for the family to be healthy and grow together. Screening of the condition is made and techniques are suggested to deal with the issue.
