OUR MISSION

At Business Interruption Consulting, LLC, our mission is to provide expert forensic accounting and advisory services, ensuring our clients receive thorough, accurate, and defensible financial analysis. We specialize in claims preparation, economic damages, financial forensic investigations, and construction dispute resolution, offering clear and reliable guidance throughout legal processes. Our commitment to integrity and meticulous execution empowers our clients to achieve fair and just outcomes in their financial and legal challenges.

Economic Damages

As the economy becomes more interconnected, it also grows increasingly complex. Vendor and customer agreements have become essential parts of doing business, and competition is now coming from places we wouldn't have imagined a decade ago. These evolving business relationships often lead to disputes between companies. When these disputes become heated, measuring economic damage can be a tough challenge.

Our firm specializes in forensic accounting, helping clients navigate disputes, arbitration, and litigation. We know how to calculate economic damages that reflect the true impact on a business. Using a variety of tools, we assess how an event has affected the financial performance of a company. Our approach ensures that our findings are grounded and backed by solid evidence.

We've handled economic damage assessments for a range of issues, including breach of contract, insurance claims, purchase price disputes, intellectual property disputes, and wrongful death cases. We also take on special projects as consultants to attorneys. Our team works closely with attorneys to clarify the specifics of economic damages and how they relate to each case. We present our findings clearly and concisely, making them easy to understand for everyone involved. This collaboration helps to strengthen legal strategies and achieve successful outcomes.
